ISSN 0116-1822

F O R E W O R D

The ***2014 Foreign Trade Statistics of the Philippines*** is an annual publication of the Philippine Statistics Authority. It presents information on value and quantity of Philippine trade with other countries and also provides comparative data for previous years as well as a historical table on Philippine trade dating back to 1890.

This Publication consists of two volumes, namely: Volume 1 - Imports and Volume 2 - Exports.

Volume 1 - Imports is divided into three sections: Special Feature: The Country's Foreign Trade Performance in 2014; Summary Statistical Tables on Foreign Trade; and Detailed Statistical Tables on Imports.

Volume 2 - Exports is divided into four sections: Special Feature: The Country's Foreign Trade Performance in 2014; Summary Statistical Tables on Foreign Trade; Detailed Statistical Tables on Exports; and Detailed Statistical Tables on Re-exports.

The PSA acknowledges with sincere thanks and appreciation the cooperation and valuable assistance extended by the Bureau of Customs and the Philippine Economic Zone Authority. We also express our deep gratitude to the traders and brokers who continue to provide us with source documents and reports needed in compiling foreign trade statistics.

SECTION 4: ***Detailed Statistical Table on Re-exports***

TABLE 9 Quantity and value of Philippine re-exports classified by commodity and destination: 2014 …….. 659

EXPLANATORY TEXT

Introduction

Republic Act 10625 otherwise known as the Philippine Statistical Act of 2013 enacted on September 12, 2013, merged four statistical agencies, namely, the National Statistics Office (NSO), the National Statistical Coordination Board (NSCB), the Bureau of Labor and Employment Statistics (BLES), and the Bureau of Agricultural Statistics (BAS) and shall be known as the PHILIPPINE STATISTICS AUTHORITY (PSA).

One of the functions of the PSA stated under Section 6 of RA 10625 is to "prepare and conduct statistical sample surveys on all aspects of socioeconomic life including agriculture, industry, **trade**, finance, prices and marketing information, income and expenditure, education, health, culture and social situations as well as the government and the political sector for the use of the government and the public;

Also, under Section 13 of RA 10625, the Sectoral Statistics Office shall: (a) Provide technical staff support to the PSA in the areas of agriculture, natural resources, agrarian reform, mining and quarrying, manufacturing, electricity, gas and water, energy, construction, **foreign and domestic trade**, services, science and technology, finance, investment, population, women and gender, health, nutrition, education, labor and employment, social welfare, governance, public order and justice.

In 1973, the former National Statistics Office became the sole agency to compile foreign trade statistics. Prior to this period, the Central Bank of the Philippines (now known as Bangko Sentral ng Pilipinas) also compiled and released foreign trade data. However, the differences in the concepts used by these two agencies resulted to a conflicting foreign trade data. This led to an agreement that made NSO the sole compiler of the official foreign trade statistics.

The Philippines adopts the "**General**" trade system of recording foreign trade statistics. The customs frontier (not the national boundary) is used as the statistical frontier. Under this system, all goods entering any of the seaports or airports of entry of the Philippines properly cleared through customs or remaining or under customs control are considered **imports**, whether the goods are for direct consumption, for merchandising, for warehousing or further processing. On the other hand, all goods leaving the country, which are properly cleared through the Customs, are considered **exports**. A distinction however, is made between export for goods grown, mined or manufactured in the Philippines (**domestic exports**) and exports of imported goods that do not undergo physical and or chemical transformation in the Philippines (**re-exports**).

Coverage

The foreign trade data contained in this report relates to commerce between the Philippines and other countries by sea or air whether for private or government use or for commercial purposes, gifts or samples. It also includes animals for the zoo, for breeding and the like. However, the following classes of goods are excluded in the compiled foreign trade statistics:

a. Fish and other marine products landed by Philippine vessel direct from the sea
b. Goods imported and exported by, or on behalf of diplomatic services and armed forces
c. Exposed cinematographic films imported or exported on rental basis
d. Personal effects of passenger on which no duty was paid
e. Issued currency notes and coins
f. Goods in transit to foreign countries
g. Stores and fuels purchased abroad by ships and aircrafts of Philippine registry and
h. Goods sent through parcel post.

Since 1982, goods are considered imported or exported on the date the carrying vessel or aircraft arrives or departs at the port or airport of unloading or loading.

The coverage of the annual publication is usually higher than the sum of monthly coverage, since it includes data from the documents, which arrived late for inclusion in their respective months. Monthly figures in this publication, however, include these corrections.

Sources of Information

Foreign trade statistics are compiled by the Philippine Statistics Authority (PSA) from copies of import and export documents submitted to the Bureau of Customs (BOC) by importers and exporters or their authorized representatives as required by law.

Imported articles of commercial nature with dutiable value of two thousand pesos and above are cleared on formal import entry (BOC Import Entry & Internal Revenue Declaration -Form No. 236). Those with dutiable value of two thousand pesos or less and personal and household effects, are cleared on an informal import entry (Informal Import Declaration and Entry - BC Form No. 177) whenever duty, tax or charges are collectible.

Effective 1980, EPZA Import Tally (Form No. 8102) are used for clearing importations intended for Export Processing Zones. However, the Customs-

EPZA Warehousing Entry (BC Form No. 242 - CEWE) which was implemented in 14 October 1991 revoked the use of the EPZA Import Tally. However, from early 1996 to the present, EPZA forms were renamed as PEZA (Philippine Economic Zone Authority) forms after the name of the agency.

Another source of import data used for clearance of cargoes is the Single Administrative Document (SAD), an electronic copy of the IEIRD. This is an on-line submission of import documents either by brokers or companies in lieu of the manual filling-up of documents.

The sources of export data, on the other hand, are Export Permit (CB-ED Form No. 102R), Export Declaration (ED) with and without Foreign Exchange Proceeds (CBP 6-21-02 and CBP 6-21-04, respectively) and PEZA Export Tally (PEZA Form No. 8104). The first form is used by Board of Investments (BOI)-registered exporters, the second form by general exporters and the last form by exporters located inside the Export Processing Zones. Effective 1 October 1991, the Revised Export Declaration was implemented which can be used by all kinds of exporters including general, BOI registered and PEZA registered exporters. Starting 30 July 1996, this form was then implemented under the Department of Trade and Industry (DTI) from the Central Bank (CB) of the Philippines.

Other sources of export data are the General System of Preferences (GSP Form A), ASEAN Common Effective Preferential Tariff Scheme (Form D), ASEAN-CHINA Free Trade Area Preferential Tariff (Form E), ASEAN - KOREA Free Trade Area Preferential Tariff (Form AK), Agreement Between Japan and the Republic of the Philippines for an Economic Partnership (Form JP) and Agreement Establishing the ASEAN - AUSTRALIA - NEW ZEALAND Free Trade Area (Form AANZFTA/AANZ). These documents are issued by the Bureau of Customs to exporters whose products are eligible for preferential tariff treatment.

Monthly reports of selected electronic companies were also used as sources of export data. In addition, the Special Permit to Load (SPL) was used for those selected companies without corresponding export document.

Starting in 2003, the Automated Export Documentation System (AEDS), a paperless recording of export transaction at the ECOZONES covering semiconductor and electronic shipments loaded at Ninoy Aquino International Airport (NAIA) was included in the compilation of export statistics. This is due to the Joint Memorandum Order (JMO) No. 02-2002 section 3.9, which states that “in lieu of providing the NSO and DTI copies (paper) of the ED, the BOC shall provide electronic files of ED’s processed on a monthly basis to these government agencies”. The PSA collects this electronic files every 15th day of the month and integrates them to the PSA database system.

In addition to NAIA, all transactions that pass through AEDS in Subic and Mactan were also included in the compilation of export statistics starting in 2004 and 2005, respectively.

Revision in the import figures were done for the years 2000 to 2004. The revision on import statistics was based on the recommendation of the Inter-Agency Committee on Trade. The committee is composed of representatives from the National Statistical Coordination Board (NSCB), Bangko Sentral ng Pilipinas (BSP), National Economic Development Authority (NEDA), NSO, PEZA, BOC and DTI-Export Development Council (EDC) and Bureau of Export Trade Promotion (BETP). The NSCB Executive Board approved the recommended methodology last May 8, 2005 through NSCB Resolution No. 8 Series of 2005 entitled "Interim Methodology for the Revision of Electronics Import Statistics". However, starting in 2006, import figures were adjusted based on the transactions that pass through the Automated Cargo Operating System (ACOS) of the BOC. Moreover, beginning March 2010, adjustments on import figures were based on the transactions that pass though the e2m (electronic to mobile) customs system; a system implemented through the BOC e-Customs Project. Through internet-based and wireless technologies, the e-Customs Project intends to streamline imports and exports processing and improve trade facilitation among BOC, other government agencies and its stakeholders anywhere, anytime - all towards the realization of the National and ASEAN Single Windows.

Commodity Classification

The 2004 Philippine Standard Commodity Classification (PSCC) is used in compiling foreign trade data starting with July 2006. This is in compliance with NSCB Resolution No. 03, series of 2005 entitled “Approving and Adopting the 2004 Philippine Standard Commodity Classification” by all concerned government agencies and instrumentalists.

The commodities are classified in accordance with the 1993 Philippine Standard Commodity Classification Revised 2 (1993 PSCC Rev. 2), a classification scheme that is aligned with the United Nations Standard International Trade Classification (SITC), and the Harmonized Commodity Description and Coding System of the Philippines, otherwise known as Harmonized System of the Philippines (HSP) from 1999 to 2006. However, in July 2006, all commodities are both classified in accordance with the 1993 Philippine Standard Commodity Classification Revised 2 (1993 PSCC Rev. 2) and with the 2004 Philippine Standard Commodity Classification (2004 PSCC) groupings. This is in compliance with NSCB Resolution No. 03, Series of 2005 entitled “Approving and Adopting the 2004 Philippine Standard Commodity Classification” by all concerned government agencies and instrumentalities. The commodities for the months of January to June in 2006, on the other hand, were then backtracked to enable them to classify to 2004 PSCC. Subsequently, in 2007 this commodity classification was then being used up to the present.

The former NSO adopted a new coverage of electronic products beginning March 2003 to ensure the consistency and comparability of statistics used by

several agencies in the country. The NSCB, through NSCB Resolution No. 12, series of 2002 dated 5 June 2002, approved the new coverage. This new coverage of electronics exports resulted from an interagency work participated in by the NSO, the BETP of the DTI, the Semiconductor and Electronics Industries of the Philippines, Incorporated (SEIPI), and the NSCB. The new coverage now includes 359 items as described in the PSCC as against to only 40 items in the previous years.

The 1993 PSCC Revised 1 (1993 PSCC Rev.1) was used in the classification of the commodities included in the trade statistics from 1994 to 1998 while the 1989 PSCC Revised (1989 PSCC Rev.) was used for the years 1991 to 1993 and the 1989 PSCC was employed from 1990 to 1991.

The 1977 PSCC was used from 1977 to 1990. It was basically patterned after the UN SITC, Rev. 2 and followed similar coding scheme up to the subgroup level (4-digit). Prior to 1977, the Revised Central Bank Commodity Classification Manual was used, which was an integration of the Central Bank Statistical Classification of the Philippines patterned after the original SITC.

Country of Origin

The Country of Origin of an imported commodity is the country where the commodity is grown, mined or manufactured. Further processing or material added to it in another country must bring about a material transformation to render such country as the country of origin. The country of origin remains unchanged if the commodity is subjected to mere sorting, grading, cleaning, packaging or similar processing.

Country of Destination

The Country of Destination is the country of ultimate destination or shipment. It is not necessarily the country where the commodity or shipment is to be unloaded, as in the case of shipment unloaded from one ocean liner but is destined to a country that is landlocked. In which case, the country of destination is the landlocked country.

Valuation

Beginning in 1963, the rate of conversion for every independent transaction in computing the FOB peso value are the actual rates appearing on entries or as reported in the daily foreign exchange quotations of the BSP. Thus, there is no fixed rate conversion for imports and exports since the actual rate fluctuates daily. For imports, such variable rates have been used effective

January 1963, whereas for the first semester of 1963, the FOB value corresponding to the dollar receipts derived from exports was computed by using the composite rate consisting of 80 percent at the free Market rate and 20 percent at the rate of two pesos to a dollar. Starting with the second half of 1963, the rate conversion has been changed to 100 percent free market rate. This latter procedure was adopted to obtain a more realistic FOB peso value and to give a true picture of the balance of trade position of the country.

The Free on Board (FOB) value is the value of the goods free on board the carrier at the frontier of the exporting country. It includes inland freight, export duty and other expenses. Ocean freight, insurance and consular fees, however, is excluded. The dollar-peso average exchange rate for the year in review is 44.23 for exports and 44.69 for imports.

In addition, valuation of goods in the Philippine foreign trade statistics is FOB. However, Cost-Insurance-Freight (CIF) valuation could also be determined as the data on freight and insurance are available.

Processing

Data processing is done both mechanically and manually.

Copies of import and export documents collected by NSO personnel from the customs houses in all ports and airports of entry in the Philippines are systematically controlled. Collected documents are sorted by month, by port, by single or multiple commodity entries and by value. About 100 entries are assigned with control numbers and folioed together for the convenience of coders and encoders and for easy processing of the processors. Each folio then undergoes the following stages of processing:

1. Coding - process of translating each item of information found in the source document to its equivalent alphabetic and or numeric code in accordance with the country, commodity, exporter, handling, carrier or port classification used
2. Code verification - process of determining the appropriateness of codes used
3. Computation - process of computing the FOB, insurance and freight values and converting each value into US dollars
4. Computation verification - process of checking the accuracy of computed data.

Quality control of coding and computation for both imports and exports is carried through sample verification. This method enables the verifier to decide after a number of entries have been verified whether to reject, continue or accept the folio. The number and type of errors are recorded and brought to the attention of the coder. Further training is given on pinpointed causes of errors of coders to improve the quality of their work.

Data encoding and editing are carried-out through the use of microcomputers. Inconsistent or erroneous entries are passed through several reject listings until such errors are fully corrected or rectified after which the monthly tabulations are finally generated.

Processing of electronic files provided by the BOC like Automated Export Documentation System (AEDS) and Automated Cargo Operating System (ACOS) and e2m are performed separately from the manually processed documents. For the AEDS, the data provided which is in the form of a delimited text file is converted to data base file to suit the structure of the Foreign Trade Statistics (FTS) system. Aside from this, conversion of FOB, insurance and freight values to US dollars were also performed as there are some transactions that have used other currencies. In addition, there is a need to recode the country of origin and port as both agencies used different code structure. Further validation of commodity codes are also done to ensure the accuracy of the data. In cases that commodity description does not tally with the PSCC codes or is not provided, the name of the importers or the importers' TIN is the final determinant of the commodity codes. After all these consistency checks and edits are achieved, then the modified data base file is appended to the export's master file to generate the preliminary export figure for the month.

Documents received after the cut-off dates for each month are accumulated, processed and the data are included in their respective months at the end of the calendar year. When all the monthly tabulations for a year have been completed and finalized, the annual tabulations are then prepared.

Other Available Data

Preliminary monthly export and import statistics are released in the form of press releases 40 days and 55 days after the reference month, respectively.

The ***Foreign Trade Statistics of the Philippines*** publication comes out annually in two volumes, Volume I for Imports and Volume II for Exports.

There are other unpublished statistical tables that are available at the Foreign Trade Statistics Section, such as those requested by private entities both in the Philippines and abroad. They could be in computer printouts, diskettes and CD's depending on the needs of the researchers. Other special tabulations may also be made available upon request, addressed to the National Statistician, Philippine Statistics Authority, CVEA Building, East Avenue, Quezon City, Metro Manila.

ABBREVIATIONS OF UNITS OF QUANTITY USED

Cu dm	-	Cubic decimeter	Oz T	-	Ounce troy
Doz	-	Dozen	Pr	-	Pair
GK	-	Gross Kilogram	Sq. cm	-	Square centimeter
NK	-	Net Kilogram	Sq. m	-	Square meter
NO	-	Number	Bbl	-	Barrel

(Note: all other units of quantity are spelled out)

Section 1

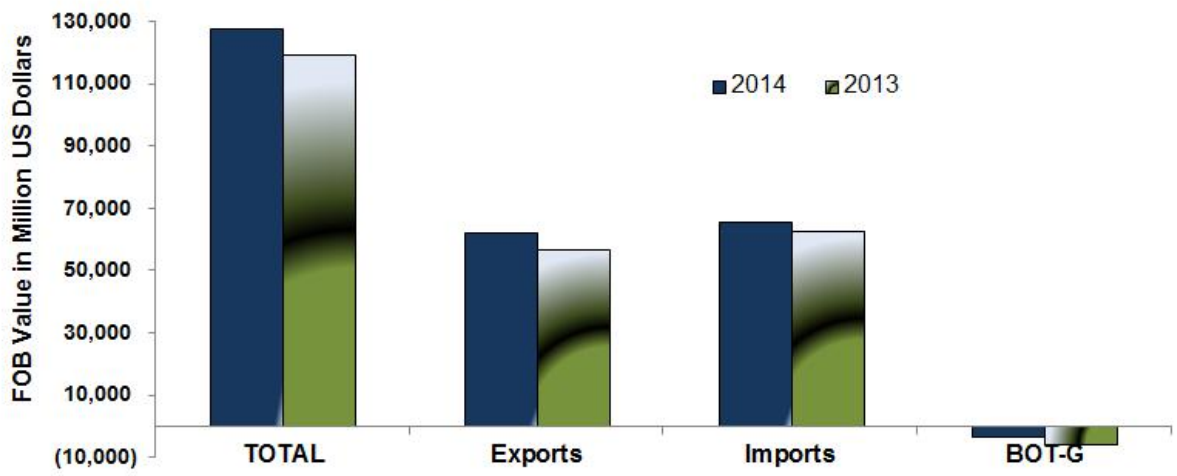

The Country's Foreign Trade Performance in 2014

FOREIGN TRADE STATISTICS OF THE PHILIPPINES: 2014

TOTAL EXTERNAL TRADE SUMMED UP TO $127.500 BILLION IN 2014

The country's total external trade in goods in 2014 reached $127.500 billion, expanding by 7.0 percent from $119.108 billion in 2013. The positive growth of the external trade was due to the increase of both inward and outward trading of goods. Total imports went up by 4.8 percent to $65.398 billion in 2014 from $62.411 billion in 2013. Likewise, total export receipts accelerated by 9.5 percent from $56.698 billion in 2013 to $62.102 billion in 2014. The country's balance of trade in goods (BOT-G) registered a $3.296 billion deficit in 2014 from $5.713 billion deficit in 2013 *(Table 1)*.

FIGURE 1 Philippine Trade Performance: 2014 and 2013

TOP 10 EXPORTS ACCOUNTED FOR 81.8 PERCENT OF TOTAL EXPORT RECEIPTS

Export sales from the top ten exported commodities totaled to $50.788 billion, accounting for 81.8 percent of the total export revenue in 2014. This registered an increase of 12.0 percent from $45.334 billion in 2013 *(Table 2).*

Electronic Products continued to be the top earner and major exported commodity for 2014 with 43.1 percent of the total exports and which accelerated by 11.9 percent from $23.931 billion in 2013 to $26.790 billion.

Other Manufactures placed second with a share of 8.3 percent and a total receipt of $5.167 billion. It declined by 5.9 percent from the 2013 value of $5.491 billion.

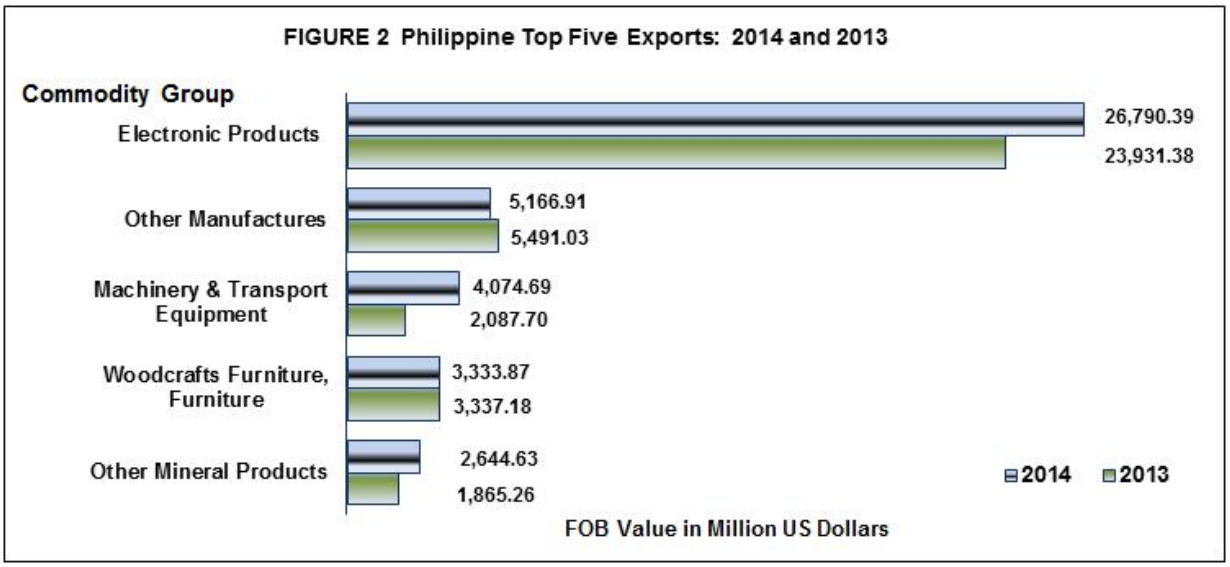

Machinery and Transport Equipment contributing 6.6 percent of the total export receipts, was the third top export in 2014 with revenue amounting to $4.075 billion, posting the highest increase of 95.2 percent among the top ten exports.

Woodcrafts and Furniture, which ranked fourth with a share of 5.4 percent, declined by 0.1 percent from $3.337 billion to $3.334 billion in 2014.

Other Mineral Products with share of 4.3 percent, ranked fifth with export receipts of $2.645 billion. It increased by 41.8 percent from the 2013 value of $1.865 billion.

Rounding up the list of top ten exports for 2014 were: **Chemicals** with an export value of $2.204 billion, decreased by 15.9 percent from $2.620 billion in 2013; **Ignition Wiring Set and Other Wiring Sets Used in Vehicles, Aircrafts and Ships** with proceeds billed at $2.102 billion, gained by 21.4 percent from $1.731 billion in 2013; **Articles of Apparel**, worth $1.859 billion, expanded by 17.7 percent; **Metal Components** with $1.410 billion export receipts, decreased by 16.3 percent; and **Coconut Oil**, worth $1.203 billion, rose by 19.6 percent from $1.006 billion export receipts in 2013.

FIGURE 2 Philippine Top Five Exports: 2014 and 2013

TOP 10 IMPORTS ACCOUNTED FOR 74.8 PERCENT OF IMPORT BILL

Total payment for the country's top ten imports for 2014 reached $48.888 billion or 74.8 percent of the total import payment, registering a positive growth of 4.6 percent from $46.738 billion in 2013 *(Table 3)*.

Electronic Products, remained as the top imported commodities for 2014, accounting for 23.4 percent of the total import bill. It posted a decrease of 1.4 percent from $15.511 billion in

2013 to $15.297 billion in 2014.

Mineral Fuels, Lubricants and Related Materials ranked second with 20.2 percent share and increased by 0.4 percent to $13.189 billion in 2014 from $13.140 billion in 2013.

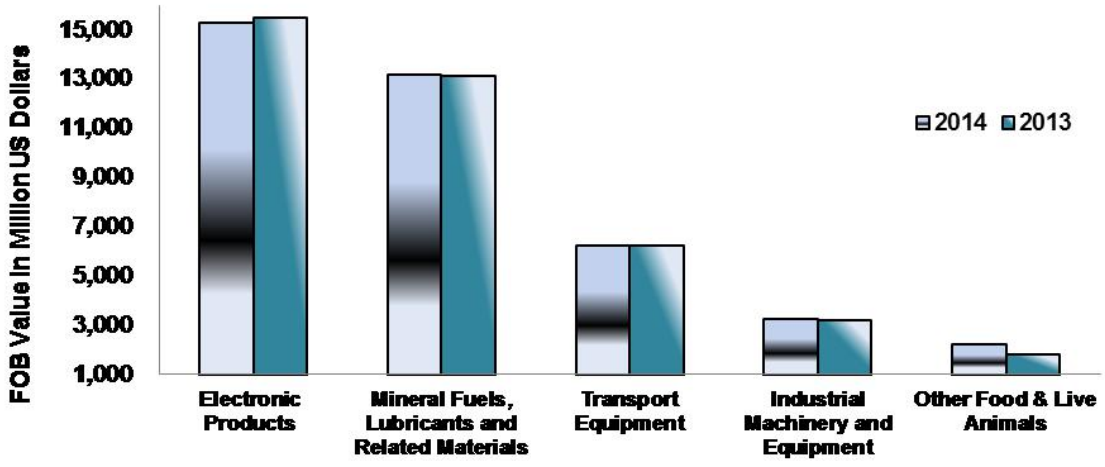

Transport Equipment which ranked third, comprised 9.5 percent of the total imports, and increased by 0.2 percent from $6.223 billion in 2013 to $6.238 billion in 2014.

Industrial Machinery and Equipment, ranked fourth, recorded a 5.0 percent share and grew by 1.5 percent to $3.243 billion worth of imports from $3.194 billion recorded value in 2013.

Other Food and Live Animals ranked fifth with 3.4 percent share of the total imports worth $2.237 billion, higher by 23.5 percent from $1.812 billion in 2013.

Rounding up the list for the top ten imports for 2014 were: **Plastics in Primary and Non-Primary Forms**, $2.076 billion, registering the highest increase among the top ten imports by 38.8 percent; **Iron and Steel**, $1.809 billion, increased by 24.0 percent; **Miscellaneous Manufactured Articles**, $1.709 billion, expanded by 25.7 percent; **Cereals and Cereal Preparations**, $1.702 billion, went up by 33.3 percent; and **Telecommunication Equipment**, $1.388 billion or an increase of 9.5 percent.

FIGURE 3 Philippine Top Five Imports: 2014 and 2013

JAPAN ACCOUNTED FOR 15.0 PERCENT OF THE TOTAL TRADE

The country's top 10 trading partners contributed a total trade worth $98.145 billion or 76.7 percent of the total external trade in 2014. This comprised a total export receipt of $52.170 billion or 84.0 percent of the total exports and total import bill of $45.975 billion or 69.7 percent of the total imports. This registered a favorable balance of trade-in goods

(BOT-G) which amounted to $6.195 billion.

Japan was the country's top trading partner in 2014, accounting for a total trade worth $19.154 billion or 15.0 percent of the country's total trade. Exports to **Japan** totaled $13.901 billion while imports were valued at $5.252 billion, posting a trade surplus of $8.649 billion (*Table 4).* **Electronic Products** got a large share of 22.5 percent of the total exports to Japan valued at $3.129 billion, followed by **Woodcrafts and Furniture** at $3.023 billion or 21.7 percent *(Table 5)*. On the other hand, majority of the imported products from Japan were **Electronic Products** billed at $1.714 billion or 32.6 percent and **Transport Equipment** with $928.95 million or 17.7 percent (*Table 6).*

People's Republic of China was the country's second largest trading partner in 2014 with total trade worth $18.337 billion or 14.3 percent of the total trade. Export receipts from **China** stood at $8.467 billion while payment for imports was valued at $9.870 billion, resulting to a $1.402 billion trade deficit (*Table 4).* Export-wise, the biggest sales came from **Electronic Products** at $3.935 billion or 46.5 percent of the country's exports to China. **Other Mineral Products** followed with total receipts of $1.681 billion or 19.9 percent (*Table 5)*. Imported goods purchased from **China** consisted of **Electronic Products** worth $1.889 billion or 19.1 percent of the country's total imports. **Minerals, Fuels, Lubricants and Related Materials** followed with imports of $947.79 million or a share of 9.6 percent (*Table 6).*

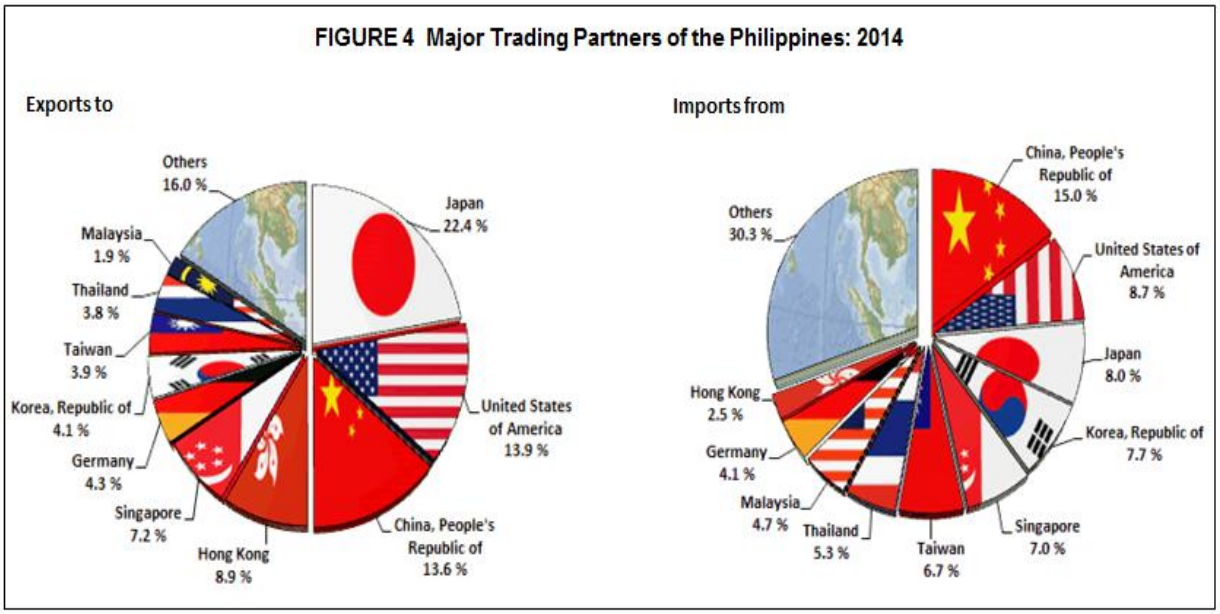

United States of America placed third accounting for 11.2 percent or $14.399 billion total trade in 2014. Receipts from exports to **USA** were valued at $8.661 billion while payment for imports totaled to $5.738 billion, reflecting a trade surplus of $2.922 billion (*Table 4).* Majority of the exports were **Electronic Products** worth $3.180 billion or 36.7 percent of the total exports to USA and **Articles of Apparel** with $1.215 billion or 14.0 percent share (*Table 5)*. Major inward shipments from USA were **Electronic Products** with payment worth $2.445 billion or 42.6 percent of the total. **Cereals and Cereal Preparations** ranked second and valued at $553.99 million or 9.7 percent of the total (*Table 6).*

Singapore ranked as the fourth largest trading partner of the country for 2014 with a total trade amounting to $9.043 billion or a share of 7.1 percent to total trade. Total outward shipments were valued at $4.451 billion while import payments reached $4.592 billion, recording a trade deficit of $140.77 million (*Table 4).* **Electronic Products** and **Petroleum Products** were the country's major exports to Singapore with earnings of $3.120 billion or 68.7 percent share and $356.51 million or 7.9 percent of the total exports, respectively

(*Table 5)*. The bulk of inward commodities from this country were **Electronic Products** with import bill of $1.884 billion or 41.0 percent share, and **Mineral Fuels, Lubricants and Related Materials** worth $908.34 million or 19.8 percent share (*Table 6).*

Republic of Korea was the country's fifth largest trading partner in 2014 with total trade worth $7.644 billion or 6.0 percent of the total external trade. Export revenues from this country stood at $2.561 billion while payment for imports was valued at $5.083 billion, resulting to a $2.523 billion trade deficit (*Table 4).* The major exported goods were **Electronic Products** at $816.30 million or 31.9 percent and **Other Manufactures** with total receipts of $774.09 million or 30.2 percent of the country's exports to Korea (*Table 5)*. However, the main imports from this country were **Minerals, Fuels, Lubricants and Related Materials** which worth $2.286 billion or 45.0 percent and **Electronic Products** with import payments valued at $1.068 billion or 21.0 percent (*Table 6).*

FIGURE 4 Major Trading Partners of the Philippines: 2014

TRADING WITH EU MEMBER COUNTRIES RECORDED AT 11.2 PERCENT IN 2014

The country's external trade in goods with the **European Union (EU)** – member countries for 2014 totaled to $14.332 billion or 11.2 percent share of the total trade. Exports to **EU** reached $6.714 billion or 10.8 percent of the total export receipts, while imports were valued at $7.619 billion or a 11.6 percent share to total imports, resulting to a balance of trade in goods (BOT-G) deficit of $905.21 million. Among the EU - member countries, **Germany** was the country's top trading partner with a total trade of $5.375 billion or 37.5 percent of EU's total

trade. Revenue from exports to **Germany** amounted to $2.657 billion while payments for imports were worth $2.718 billion or a trade deficit of $60.16 million *(Table 7).*

Major goods exported to the EU – member countries in 2014 were: **Electronic Products**, $4.083 billion; **Coconut Oil** (crude and refined), $450.56 million; **Other Manufactures**, $439.86 million; **Machinery and Transport Equipment**, $245.40 million; and **Articles of Apparel**, $211.09 million *(Table 8).*

Top five imported goods from the EU – member countries were: **Transport Equipment**, $2.212 billion; **Electronic Products**, $2.113 billion; **Industrial Machinery and Equipment**, $523.66 million; **Medicinal and Pharmaceutical Products**, $440.51 million; and **Other Food and Live Animals**, $342.74 million *(Table 9).*

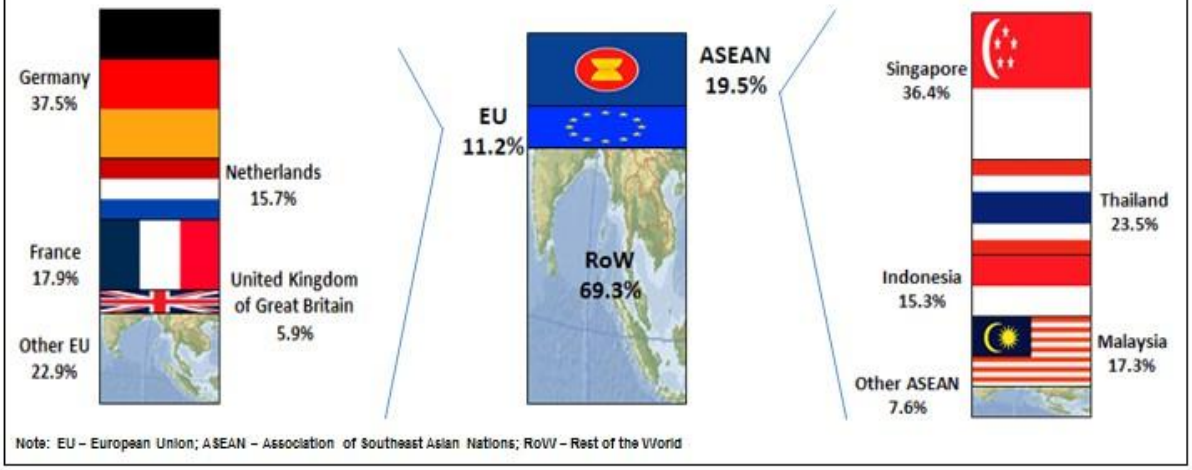

TOTAL TRADE WITH ASEAN MEMBER COUNTRIES POSTED AT $24.863 BILLION

Total external trade in goods with **ASEAN** – member countries for 2014 amounted to $24.863 billion or 19.5 percent of the country's entire trade. Exports to **ASEAN** - member countries were valued at $9.212 billion while imports were worth $15.651 billion, generating a unfavorable balance of trade in goods (BoT-G) of $6.439 billion. **Singapore** was the country's top trading partner among the ASEAN - member countries with a total trade accounting for $9.043 billion or 36.4 percent share of the ASEAN total trade. Exports to **Singapore** was worth $4.451 billion while imports payment was valued at $4.592 billion, reflecting a trade deficit of $140.77 million *(Table 7).*

Leading exports for the ASEAN – member countries in 2014 were: **Electronic Products**, $4.494 billion; **Other Manufactures**, $1.203 billion; **Machinery and Transport Equipment**, $821.28 million; **Chemicals**, $493.35 million; and **Petroleum Products**, $440.31 million *(Table 8).*

Top five imported commodities from the ASEAN – member countries were: **Electronic Products**, $3.548 billion; **Mineral Fuels, Lubricants and Related Materials**, $2.675 billion; **Transport Equipment**, $1.860 billion; **Plastics in Primary and Non-Primary Forms**, $1.005 billion; and **Other Food and Live Animals**, $821.76 million *(Table 9).*

FIGURE 5 Philippine Total Trade with EU and ASEAN: 2014

Note: EU – European Union; ASEAN – Association of Southeast Asian Nations; RoW – Rest of the World

TOTAL TRADE WITH APEC REACHED $103.18 BILLION

Majority of the country's external trade for 2014 were from **APEC** – member countries which amounted to $103.18 billion or 80.9 percent of the country's total trade. Export receipts totaled to $52.769 billion or 85.0 percent of the total exports while import payment summed up to $50.412 billion or 77.1 percent share of the total imports. Trading with this economic bloc resulted to a favorable balance of trade in goods (BOT-G) to the country which amounted to $2.358 billion. Topping the list of the country's major trading partners within APEC were: **Japan**, $19.154 billion or 15.0 percent share**; USA**, $14.399 or 11.3 percent share; **People's Republic of China**, $18.337 billion or 14.4 percent share; **Singapore**, $9.043 billion or 7.1 percent share; and **Republic of Korea**, $7.644 billion or 6.0 percent share of the APEC total trade *(Table 10).*

Electronic Products were still the country's major export to APEC – member countries for 2014 with sales valued at $22.173 billion or 42.0 percent share of the total APEC exports. Other top exported commodities were: **Other Manufactures**, $4.462 billion; **Woodcrafts and Furniture**, $3.260 billion; **Machinery and Transport Equipment**, $3.238 billion; and **Other Mineral Products**, $2.638 billion *(Table 11).*

The top imported goods from APEC - member countries were: **Electronic Products**, $13.110 billion; **Mineral Fuels, Lubricants and Related Materials**, $8.517 billion; **Transport Equipment**, $3.769 billion; **Industrial Machinery and Equipment**, $2.596 billion; and **Plastics in Primary and Non-Primary Forms**, $1.845 billion *(Table 12).*

Notes: 1/ - Sum of domestic exports and re-exports
2/ - See list of member countries *(page xviii)*
3/ - Prior to 1994 data, it was named General Agreement on Tariffs and Trade (GATT)
4/ - Excludes associate members
5/ - Prior to 1996 it was named European Community; 1997 onward, it was named European Union (EU); and starting July 2013, Croatia was added as new member of EU
