## MESSAGE FROM THE SECRETARY-GENERAL OF ASEAN

**The ASEAN Economic Community (AEC) Chartbook** intends to provide users with graphical information on important characteristics of the ASEAN economy as well as development trends and patterns of regional economic integration in ASEAN.

The AEC Chartbook provides a user-friendly narrative of the ASEAN economy – the general macroeconomic makeup and trends, the dynamics of trade and investment within ASEAN, and important developments in information and communication technology as well as its economic relations with major trade partner countries and regions and the rest of the world. It also pictures some general trends in the seven priority integration sectors for trade in goods in ASEAN.

I hope that this Chartbook will make it easier for everyone to understand and track the progress of economic integration towards the realisation of the AEC by 2015.
