## About COSECAM

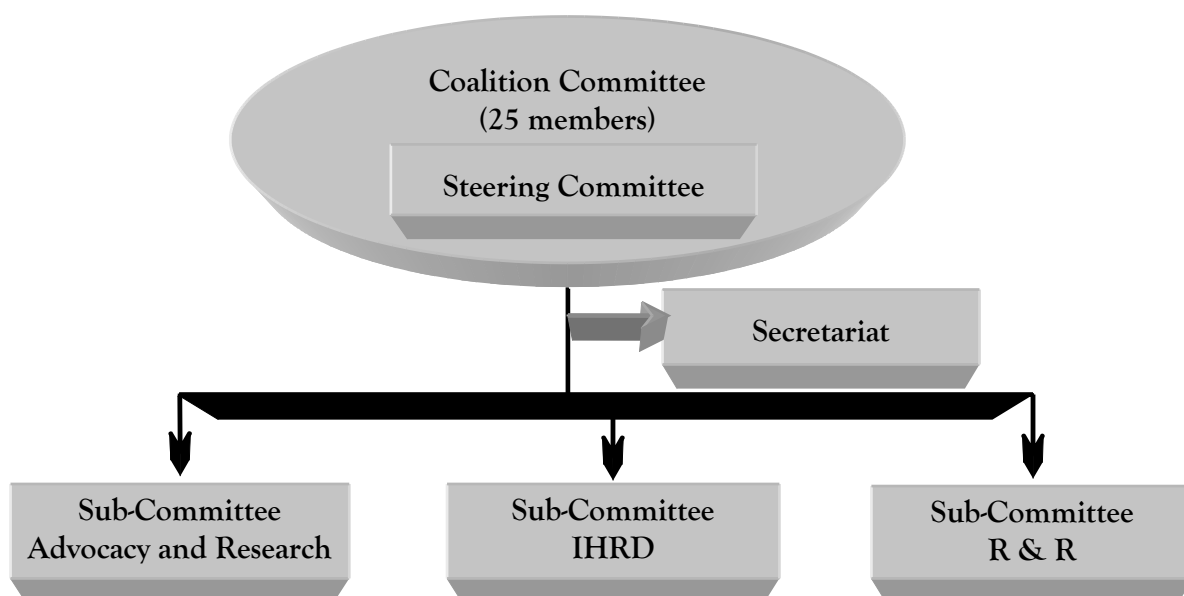

COSECAM is a coalition of 25 non-governmental, non-partisan, independent and democratic organizations. COSECAM was established on 16 November 2001, with the aim of addressing the sexual exploitation of children in Cambodia.

The coalition program has four major components: Advocacy and Research, Institutional and Human Resource Development, Rehabilitation and Re-integration, and CETHCam Unit. The programs have been implemented through a subcommittee that was established through the involvement of a number of senior staff from the member organizations. Staff participation is based mainly on interest and the relevance of the program to their work. Coalition staff members have provided capacity building for the organization, as well as technical, administrative, and financial support to each subcommittee to ensure that program activities are implemented effectively.

Over the years, the structure of the Coalition has been adjusted, as required to ensure that its aims and objectives are achieved. After a Staff Retreat on 5th October 2003, the new (and current) Coalition structure was suggested in order to simplify the formation. The team then agreed to adopt the new proposed structure. COSECAM has facilitated Special Delegate Meetings since then, to further discuss the effectiveness of the new structure and its role and responsibilities.

The new structure has 3 hierarchical levels including the Steering Committee (StC), Secretariat and Sub-committees, as outlined in the diagram below. Each box has its own role and responsibility.

### Draft of COSECAM's New Structure

#### 1. Steering Committee (StC)

The StC governs the Coalition. It was established by an election among representatives from member organizations (Directors/Presidents). The elected committee members are well-known, active and articulate and have enough available time to contribute their extensive knowledge and experience to the committee. They provide valuable input on program strategies, the direction of the Coalition, adopting policy and approval of the annual budget. They also played a role in appointing

the Coalition Coordinator, are representatives of Coalition to outsiders, assist in fundraising and monitor Coalition achievements.

### **Roles and Responsibilities:**

1. Participate in every quarterly meeting to overview Coalition work, re-adjust work-plans and provide advice on how improvements could be made within the Coalition.
2. Give advice to the Coalition to ensure its smooth functioning
3. Monitor and assess the Coalitions progress and achievements.
4. Approve annual budgets, program strategies, policies and the direction of the Coalition
5. Fund raising in and outside of the country.
6. Monitor financial expenses against the budget.
7. Represent the coalition to outsiders including donors, Government institutions, UN agencies and NGOs.

### **Requirements of membership**

1. There are five StC members. Mandate of Ex.Com<sup>1</sup> term is 2 years. To ensure the continuity of Coalition, the replacement of new Ex.Com members should happen only 40-60%, although its mandate is over.
2. Each current StC member has the right to stand again for election, even when his/her mandate has been completed.
3. The StC has the right to call a meeting to discuss issues related to the Coalition.

## **2. Member Organizations or Delegate Group**

The Delegate Group is comprised of 25 senior management representatives of Coalition member organisations. It is a permanent group established with the aim of identifying policies and strategies for the Coalition. The Delegate Group meets once every four months to discuss general business. The third meeting, the “Retreat”, will be held at the end of each year.

## **3. Secretariat**

The Coalition Secretariat is to be supervised by the Coalition Coordinator (CC) with advice from the Technical Advisor and StC. The Secretariat is responsible for coordinating and supporting its member organizations when implementing program activities, through Sub-committees, in terms of capacity building and technical, financial and administrative support.

### **Role and Responsibilities**

1. The Coalition Coordinator is responsible for managing program activities, finances and administration aspects.
2. Coordinates communications between Sub-Committees and Ex.Com.
3. Responsible for administration, financial budgeting and expenditures.
4. Coordinates work both in and outside Coalition organizations.
5. Coordinates and facilitates fund raising with other possible donors that are interested in sponsoring the Coalition.

---

<sup>1</sup> Executive Committee

6. Coordinates the development of program proposals, budgets and work plans for implementation.
7. Communicates, coordinates and organizes meetings, training sessions, workshops and conferences for the Coalition.
8. Updates Coalition members, and reports to donors, on the progress and achievements of program activities.
9. Brainstorms and takes initiative with possible projects/programs that would overcome the problems encountered during implementation phases of projects.
10. Create income statement reports and submit to the Board of Directors for update and approval.

#### **4. Sub-Committees**

Sub-Committee members are elected from any of the 25 interested membership organizations and they are based on the Coalition's programs. The membership of each sub-committee member is based on his or her area of interest and their relevance to the organizations work. Their mandate term is for one year. The sub-committee meets monthly to discuss program activities, share experiences, discuss problems that have been encountered and lessons learned, as well as coming up with new strategies or solutions to enhance interventions. Each sub-committee is responsible for a particular program. They also have the right to make decisions regarding the implementation of their programs.

##### **Roles and Responsibilities:**

1. Prepare program proposals and their corresponding budget, and then submit it to the Secretariat for comments.
2. Implement, monitor and follow up on program activities
3. Prepare Sub-Committee reports for the Delegate Group meeting.
4. Coordinate administrative and financial affairs, to ensure the effective implementation of each program, with the Secretariat.
5. Rotate the Chair of the Sub-Committee
6. Participate regularly in the Sub-Committee monthly meetings
7. Co-operate with other sub-committees within the Coalition.
8. Perform other tasks as requested by Ex.Com or Secretariat

## Anakot Kumar (AK)

### Contact Details

Address: Group 14, Phum Leach, Leach Commune, Phnum Kravanh District,  
Pursat Province  
Tel: (855) 12 583 862  
Email: [anakotkumar@yahoo.com](mailto:anakotkumar@yahoo.com)  
Contact Person/s: Mr. Khem Sokhon, Executive Director  
Website: Not available

### About the Organization

Head of Organization: Mr. Khem Sokhon, Executive Director

Board of Directors: Mr. Cheng Samnang  
Mr. Prum Rachana  
Mr. Lach Bunthoeut  
Mr. Ken Kan  
Mr. Sang Savorn

No. of Staff (approx): 21 Staff (04 females)

NGO Network Associates: COSECAM, Wathnakpheap

Vision: Anakot Kumar contributes to improving opportunities for children living in especially difficult circumstances and their families. It promotes community based self-help structured initiatives for development through facilitating the work of local groups.

AK fosters children's rights in Cambodia by addressing child rights issues at a community level and by advocating for children rights.

Objective/s: For communities, particularly the poorer sections among them, to become the owners of their development activities. Anakot Kumar wants to:

Share initiatives and experience with communities to build confidence and to support appropriate local initiatives in development, which will benefit all members of the community, especially its children, and to link development with the local culture and needs of the people.

To facilitate collective self-help development in communities, with the aim of improving the quality of life, especially for women, children and other vulnerable groups, through community based and locally initiated activities and programmers using largely internal resources.

Anakot Kumar establishes appropriate relationships with local groups and communities. This relationship is based on clear roles and responsibilities

of the communities, the local groups and Anakot Kumar in the community development process. Focus is primarily on rural areas where issues of child trafficking, child labour and other forms of abuse are prevalent.

Program Areas /  
Activities:

Foster community based institution building for local development.

Promote local capital generation for development and social welfare purposes through establishing community owned micro-financial services and income generating activities based on local resource mobilization.  
Facilitate access to basic education for children and skills training for youth which is adapted to the local labour markets.

Facilitate establishment of community based social welfare services and access to them.

Train and support local partner organizations in coordinating and facilitating community-based development processes.

Influence government policy.

Advocate for children's rights and their implementation through awareness rising.

Spread the benefits of learning and experience gained by offering consultancy support to a wider group of people and organizations.

Community based child development program to promote the growth of collective self-help structures capable of mobilizing local resources for the development of the community.

Anakot Kumar is a non-political, non-religious, non-profit making Cambodian non-governmental organization devoted to furthering community development in Cambodia and the implementation of children's rights. It was established in 2001 to localize the country representation office of WP.

14 – Svay Rieng  
5 – Sihanouk Ville

NGO Network Associates: Action Committee for Human Rights, COSECAM, NGO CRC, CAMBON, CNAC, COMFREL, ECPAT

Vision: Children have a birthright to freedom and protection.

Mission: CCPCR aims to promote children's rights, in accordance with the United Nations Convention on the Rights of the Child (UNCRC), by preventing child victimization and protecting children from violence and commercial sexual exploitation. CCPCR provides victims under the age of 18 years with emergency shelter, vocational skills training and reintegration support.

Goal/s: To prevent and protect children and victims under 18 years old from physical abuse, sexual abuse and sexual exploitation and trafficking.

Objective/s: To promote child rights in Cambodia through public awareness and to raise awareness on commercial sexual exploitation of children through child groups.

To address the law on suppression, kidnapping and trafficking of persons through local authority, law enforcers, students and parents.

Program Areas /  
Activities:

Five main programs: Children's promotion and prevention, Investigation and Rescue, Protection of Children's Rights, Recovery, Rehabilitation and Reintegration and follow-up.

The following are examples of activities:

- Workshops.
- Use of television, local newspapers, newsletters, leaflets and posters.
- Child-to-child education.
- Network formation within the community to help protect children and prevent child abuse.
- Workshops with local authorities and school teachers.

Formed on 20<sup>th</sup> November 1994, CCPCR focuses on the protection of children's rights. CCPCR works with children who have been physically, sexually and/or emotionally abused. CCPCR has been active since March 1995 and is officially recognized by the Ministry of Interior. CCPCR is a local non-governmental, non-profit organization established to implement the CRC. Its core activities are to promote and protect the rights of children and, specifically, to prevent sexual abuse and trafficking.

### About the Organization

Head of Organisation: Mr. Sok Sam Oeun – Director

Board of Directors: Mr. Basi Fernando  
Ms. Lis Dundahle  
Dr. Sok Mahtoon

No of Staff (approx): 53 fixed (Phnom Penh)

No. of Provincial Offices: 4

NGO Network Associates: COMFREL, COSECAM, Action Committee

Mission: To strengthen human rights through law reform, role of law, free democracy.

Goal/s: To reduce and eliminate human trafficking

Objective/s:

- To increase the promotion and protection of trafficking victim's human rights.
- To increase knowledge of trafficking laws among law enforcement personnel.
- To increase the awareness and legal skills of NGOs and legal practitioners.
- To increase legal assistance to victims of trafficking in ways that will empower them.
- To increase public awareness of laws against trafficking and the legal rights of trafficking victims.
- To facilitate increased legislative advocacy and law reform in the area of trafficking.
- To contribute to the prevention of further cases of trafficking.

Program Areas /  
Activities

Legal Services

The following are examples of past activities:

- Legal Training
- Investigation mentoring
- Organization of Workshop
- Publication of Books & Brochures

CDP works to promote and protect human rights, thus strengthening the legal system, the rule of law and liberal democracy. The organization carries out its mission through the use of lawyers to defend human rights, building public awareness of the law and through advocacy.

CDP is the first and largest aid organization in Cambodia and was established by the International Human Rights Law Group in 1994.

CDP became an independent local NGO in 2001. Its headquarters are based in Phnom Penh with four provincial offices in Battambang, Kompong Cham, Kompong Thom and Siem Reap.

In February 2001, CDP established the Centre Against Trafficking (CAT) to carry on this work in conjunction with five NGO partners. CAT combats people trafficking by strategic case representation of trafficking victims, conducting training and legal awareness courses on the law regarding trafficking and its implementation to key actors and shareholders, and by providing coordination and input into workshops, strategic planning and draft laws.

## Cambodian Hope Organization (CHO)

- Building alliances with civil society and state institutions to support appropriate legislative and policy reform that promotes gender equity.
- Following CEDAW Protocol to advocate gender mainstreaming which will address and correct situational imbalances creating gender equity in society.
- Utilizing the media to dispense information as well as publicly hold accountable duty bearers.

## 4. ORGANIZATIONAL AND HUMAN RESOURCE DEVELOPMENT

To perform at the highest program and administrative standards through developing human resource and organizational capacity

### FOCUS ON:

- Maintaining quality level financial system by enforcing rigorously financial procedures to ensure efficiency, transparency and accountability.
- Improving communication lines within CWCC so that critical information are shared in a timely manner and analyzed; able to be used in advocacy and monitoring at both the national and international level
- Providing adequate resources, technical assistance and equipment in good working condition are available to ensure highest quality of progress and program implementation.

- *Ensuring the health, security and wellbeing of staff*

The Cambodian Women's Crisis Center was created by a group of women who perceived that levels of violence against women and children were severe and that assistance services were lacking. CWCC's services are designed to help abused women from the time they are rescued from violence until the time they are reintegrated into local communities. Founded in Phnom Penh in March 1997, a provincial office was established in Banteay Meanchey in 1999 and in Siem Reap in 2001. CWCC is registered with the Royal Government of Cambodia on 23rd January 1998.

## Cambodian Women's Development Agency (CWDA)

### Contact Details

### About the Organization

Head of Organization: Ms. Hun Phanna- Acting Director

Board of Directors: Barbara Fitzgerald  
Kasem Kolineary  
Boua Chanthou

No. of Staff: 24

NGO Network Associates: COSECAM, TDH Netherlands & Germany, CHRHAN, CPN, HACC, GADC, NGO Forum, CCC, ECPAT, CEDAW

Vision and Mission: To gain recognition and enhance the capacities and contributions of women in the process of national development.

Goal/s: CWDA is dedicated to enhancing the self-sufficiency and self-reliance of Cambodian communities towards the advancement of women's economic and social rights.

Objective/s: To empower women to be self sufficient in order to pursue decent lives in the city. Consequently, CWDA's efforts have been focused on building public awareness against the increasing social problems of human trafficking, HIV/AIDS, drug abuse and domestic violence.

Program Areas / Activities **Community Self Prevention Against Trafficking in Women and Children Program**

Integrated activities to improve the living conditions of community people, providing education for women and children, especially girls who have dropped out of school, providing health education to address issues relating to HIV/AIDS, violence against women, to provide shelter for young women and children who have been the victims of violence and promoting gender equality.

#### **HIV/AIDS & Sex Workers Program**

This program addresses HIV/AIDS issues amongst high-risk groups, namely sex

workers and their families. Support is offered through the provision of alternative options to generate income and improve their health to support their families.

#### **Vocational Training Program**

This program provides training to unemployed young women who have recently graduated from high school. The following courses are offered: English language, typing, hospitality, general office skills, computer training, accountancy, tailoring and weaving. There is a 50-60% success rate of job placements after training has been completed.

CWDA is a Cambodian NGO that has a strong focus on women's role in society. It is the only organization that works closely in the ever-growing prostitution business in Phnom Penh. In 1998, it helped to establish a Cambodian Prostitute Union. It has more than 1000 members so far and helps to raise awareness about HIV/AIDS, in order to promote health among sex workers.

CWDA is an indigenous, non-profit, non-governmental organization with no religious or political affiliations but a strong feminist agenda. It grew out of the former Phnom Penh Municipality Women's Association, a government department in the 1980s. In May 1993 the Cambodian Government's Supreme National Council accredited CWDA as an independent NGO.

No. of Staff (approx): 16 fixed

NGO Network Associates: NGO CRC, CYP Network, ECPAT Cambodia, CAP International Network, COSECAM, OIYP, Play Safe

Vision: Children and youth are deemed as the rights holders and the key to the future of Cambodia.

Mission: To promote children and youth participation  
Coordinate Children and Youth Network  
Advocate on CR and take part in CRC monitoring

Goal/s: To achieve full participation of children and youth and recognition of their value in society.

Objective/s:

- To promote children and youth participation in child rights and solving problems which concern them
- To coordinate and strengthen children and youth working group and network.
- To advocate for children and youth participation.

Program Areas / Activities:

**Children Participation in Making Child Rights a Reality**  
This program includes ongoing capacity building and supports the initiatives of children to facilitate a positive change in their situation and within their communities in order to promote their best interests.

**Children Net**  
Children Net is a national network of children working to ensure the rights of children are respected and upheld. Members meet to discuss issues and

share information.

**Children Sponsorship**

Sponsoring both girls and boys to receive education until the end of high school. Each child needs \$30 per month for tuition and study materials.

**Young Resources Development**

YRD provides young people with the opportunity of not only gaining experience but also contributing to solving social problems which effect children. CAMP aims to empower these young people by providing them with training on motivation, decision making, conflict resolution and negotiation, communication, stress management and project management.

**Publications**

Camp produces a variety of publications on the issue of children's voice in society, protection and prevention and other training documents.

CAMP is a youth volunteer organization which was established in 2000 to promote the rights of children and young people in Cambodia, particularly the right to participation. CAMP produces a variety of publications on the issues of child and youth participation and other training documents. These documents serve to raise awareness and advocate for child protection.

### About the Organization

Head of Organization: Ms Mom Thany – Executive Director

Board of Directors: Mr. Laurence Gray  
Ms. Mam Somaly  
Mr. Henk Van Beers

No. of Staff (approx): 30 fixed

NGO Network Associates: NGO CRC, COSECAM, ECPAT

Vision: All of Cambodia's children grow up and be educated in a peaceful and healthy environment so that they are able to exercise their rights to live meaningful lives and to participate fully in society.

Mission: CRF works through three main missions as follows:

- Working for the understanding of children's rights and needs through awareness raising and advocacy at all levels.
- Empowering children and promoting their participation and voices in the society.
- Assisting the government in the implementation of the United Nation Convention on the Rights of the child (UNCRC) and monitoring its implementation in Cambodia.

Program Areas / Activities: **I. Mainstreaming Child Rights in TTCs:**

#### **Introduction**

Recognizing that the success of our programs requires a common understanding among teachers about their roles and duties towards the implementation of the UNCRC in schools, we work in partnership with the Ministry of Education, Youth and Sport and Teacher Training Colleges to include child rights-related training into the official training program for pre-service teachers.

#### **Objective**

We aim to mainstream concepts of child rights, child participation, inclusive

education, positive discipline in schools and prevention of trafficking and sexual exploitation of children by integrating these concepts into regional and provincial Teacher Training Colleges.

## **II. Mainstreaming Child Rights in Schools:**

### **Introduction**

What began as a modest pilot project to introduce child rights into two schools in Kandal province has blossomed into an ambitious child rights education program that now encompasses 53 schools. In the classroom, we strive to help educators raise awareness of an ever-expanding list of child rights-related topics. Children are learning about a wide assortment of issues that are essential to their well-being, including the four baskets of child rights—the right to survival, the right to protection, the right to development, the right to participation; and positive discipline in schools.

### **Objective**

To mainstream the concepts and practice of child rights , positive discipline in schools and child participation (CR, PDS, CP) in to 53 target schools.

## **III. Strengthening Children's Councils to Improve Quality of Education**

### **Introduction**

A Project of "Strengthening Children's Councils to Improve Quality Education" derived from " Mainstreaming Child Rights in School project" which was successfully implemented in its targeted provinces in the last 3 years, 2005-2007. The project aims at improving structure of children's councils, and its roles and responsibilities which response to the rights of child participation in schools, families and communities. The capacity building process to the Ministry of Education Youth and Sport (MoEYS) staff at national, provincial, district and community levels is the need for successful implementation of the project. The project will be implemented in line with Child Friendly School Policy of the MoEYS. For the first phase of piloting the project, the periodical extent is from January 2009 to June 2010.

### **Objective**

1. Key officials from MoEYS, PoEYS, and DoEYS, school principals, classroom teachers and school-community support committee gained knowledge and experience on topics related to Children's Councils Strengthening and take actions to include and protect children in particular the most disadvantaged, and engage and support them in the activities of the Children's Councils.
2. Children, in particular the most disadvantaged, are reached by, engaged in and benefiting from non-violent and safe school with child friendly learning environment.
3. A model for strengthening Children's Councils documented and widely shared among government and NGO agencies working in the same area.

## **IV. Enhancing Capacity of Child/Youth-led Organizations**

### **Introduction**

Shortly after the inception of Child Rights Foundation, we identified several children and youth-led organizations that were actively working to improve the

lives of children in Cambodia. We invited these groups to join a network of children and youth-led organizations called the Cambodia Children and Young People Movement for Child Rights (CCYMCR), which we launched to promote understanding of the United Nations Convention on the Rights of the Child.

#### **Objective**

Not only do children and young people have the most to gain from the full implementation of the UNCRC in Cambodia, they know better than anyone what their unique needs and challenges are. We believe it is therefore essential that children are not only equal partners in realizing this goal, but also that they take the lead in achieving that goal. That's why we are striving to build up the organizational and programmatic capacity of CCYMCR, which is known by its members simply as The Movement, to become a leading force for child rights in the country.

### **V. Preventing Trafficking and Sexual Exploitation of Children and Child Corporal Punishment in Schools:**

#### **Introduction**

Child Rights Foundation (CRF) helps to bring about a Cambodian society that is free of violence and respectful of CR through our efforts to mainstream CR into schools. Believing that school is a proper commonality environment to undertake the changes of mindsets and behaviors from both of adults and children, CRF formulated a 5-year Strategic Plan 2008-2012 to include the prevention of children from Trafficking and Sexual Exploitation and Corporal Punishment in schools.

#### **Objective**

We aim to build capacity of teachers and children in initiating actions preventing the Trafficking and Sexual Exploitation of Children and Corporal Punishment in schools.

### **VI. Building Children's capacity of Active Citizens**

#### **Introduction**

Seeing the needs to change adults views in traditional way toward children and to empower children as well as having strong belief on investing in children and youth who are tomorrow's leaders, educators, fathers and mothers is fundamental to the sustained development and prosperity of Cambodia, CRF in partnership cooperation with CIFA decides to develop and implement a project **"Building Children's Capacities for Active Citizens"** aiming to complement to the above existing assistances in planning and implementation of "at least I can read and write! Primary education program for street children" in Neak Loeung, Peam Ror district, Prey Veng province.

#### **Objective**

The project's objective is to enhance knowledge and skills of staff and child care-givers, currently working for CIFA drop-in center, Neak Loeung, in delivering proper services/ practices to children living at the orphanage and to empower children to be able to self-protection and meaningful participation.

Child Rights Foundation (CRF) is a child-focused, non-profit, non-political and non-religious Cambodian non-governmental organization working towards the full implementation of the Convention on the Rights of the Child in Cambodia. CRF was established on 20th November 2000 and registered with the Royal Government of Cambodia on 6th March 2001. In 2004, CRF's Executive Director received the Asian Youth Award on "Youth Entrepreneurship" in recognition of her outstanding success as a youth entrepreneur and her valuable contributions to the promotion of child rights and child participation in Cambodia.

## Coordination of Action Research on AIDS and Mobility (CARAM) Cambodia

### Contact Details

Email: [caram.cam@online.com.kh](mailto:caram.cam@online.com.kh)  
Contact Person/s: Mr. Navuth Ya, Executive Director  
Website: <http://www.caramasia.org/>

### About the Organization

Head of Organization: Mr. Navuth Ya, Executive Director

Board of Directors: Dr. Kek Galabru  
Mr. Sok Sam Oeun  
Mr. Lok Vichet

No. of Staff (approx): 13

NGO Network Associates: CARAM Asia, Migrant Forum in Asia (MFA), COSECAM, CHRHAN, Cambodian Human Rights Action Committee (CHRAC), CAMBOW, NGO DEAW, Migrant NGOs Network (MNN), Mobility Technical Working Group, National AIDS Authority (MTWG)

Vision: CARAM Cambodia envisions that "all people have the rights to stay or move and live and work in dignity with equal rights in society where their quality of life is ensured".

Mission:

- The empowerment of migrants, their families and communities in the migration process for the promotion and protection of human rights, including health, reproductive and sexual rights.
- The production of knowledge using participatory action research on vulnerability, health status and potential of migrant workers for planning and implementing appropriate and effective regional interventions and advocacy work.
- The mainstreaming of migration and HIV/AIDS from the migrant perspective as specific areas of intervention in policy and program development.
- Advocacy for improvement of quality of life for migrant workers including proper and equal access to health care and services.
- Promotion of gender equality and justice.

Program Areas /  
Activities:

Presently, CARAM Cambodia has four projects 1) Community Based Prevention, Care and Rights 2) Pre-departure and Post-returnees 3) National Advocacy and Production of Relevant Materials and 4) Regional Projects. The programs primarily works with Cambodian and Vietnamese migrant sex workers and Cambodian migrant workers who are prepared to work abroad (destination countries-Malaysia, Thailand, South Korea and others).

In the past nine years working in migration, health and migrant worker rights as well as human trafficking issues, CARAM Cambodia has safely repatriated over 187 victims of trafficking and labour exploitation from 2000 to 2006, and reintegrated them into society through the provision of referral service for them to gain vocational skills.

CARAM Cambodia provided referral service in collaboration with the Ministry of Health, Ministry of Labor and Vocational Training, Ministry of Social Affairs and Veterans, local and international NGOs such as International Organization for Migration (IOM), CARAM Asia, and other concerned institutions. In 2007, CARAM Cambodia has coordinated repatriation of over 61 Cambodian trafficked victims from Indonesia and coordinated in addressing 4 labour exploitation cases in cooperation with the Cambodian Embassy to Indonesia and Malaysia as well as CARAM Asia's Indonesian and Malaysian partners.

Since its establishment, CARAM Cambodia has provided outreach education to over 6,000 Cambodian and Vietnamese migrant sex workers on reproductive health, human rights and referred over 285 migrant sex workers to private and public service; and some of them have been selected and promoted to be peer leaders. So far, there are more than 30 peer leaders trained and some of them had left sex industry to pursue their endeavors. In addition, CARAM Cambodia has provided pre-departure training to over 10,000 Cambodian migrant workers who were posted to destination countries (Malaysia, Thailand, South Korea, and others) through recruiting agencies and also referred over 519 Cambodian migrant workers to private and public health service for STI treatment during their stay at recruiting agencies.

CARAM Cambodia is recognised for its achievements, especially in the area of:

- Safe repatriation assistance coordination of trafficked victims and in their reintegration assistance coordination to NGO partners
- Addressing labour exploitation cases on migrant workers who were posted to work in destination countries
- Advocating Ministry of Labor and Vocational Training (MoLVT) to issue PRAKAS on pre-departure training and post return program for migrant workers who are prepared for working abroad.

CARAM Cambodia was set up as a local non-governmental organisation in 2000. Previously, CARE Cambodia had been the host of the project and the implementing partner from 1997 to 1999. At the time, there were five full time staff members and two major projects: 1) Research with Vietnamese

Indirect Sex Workers and 2) Pre-departure Training for Migrant Workers. Upon the establishment of Coordination of Action Research on AIDS and Mobility (CARAM Cambodia) as a local NGO, CARE's former staff working on the project, were transferred to CARAM Cambodia.

NGO Network Associates: COSECAM, CSCN(Cambodian's Street Children Network, NEP(NGO EDUCATION PARTNERSHIP)

Vision: Cambodian vulnerable children (including but not limited to trafficking victims, street working/street living children, disabled children and children victims of any kind of exploitation or abuses) have the capacities and opportunities to equally access to children right, and basic children needs as stated in as stated by Convention on the Rights of the Child 1989

Mission: DT is committed to work with the most vulnerable children in Cambodia. With the support of the communities, the governmental and civil society representatives, DT identifies and implements responses to enhance the access to a better future for the most in need children.

To ensure this DT:

- Strengthen the collaboration between Cambodian communities, Governmental and civil society representatives
- Advocate for the respect of the basics needs and children rights especially for the most vulnerable children
- Implement with the support of the communities, the governmental and civil society representatives adapted answers to support the most in needs children

Objective/s:	<p><b>Prevention:</b> of child-abuse, child exploitation, substance abuse and child trafficking (internal and cross-border trafficking)</p> <p><b>Rehabilitation:</b> of underage substance abusers disabled and traumatized children</p> <p><b>Integration:</b> of neglected children and street-children into Khmer society through Non-Formal education and compulsory education (Public School)</p> <p><b>Reintegration:</b> of trafficked and runaway children into their culture, their communities and if possible, their families of origin</p>
Program Areas / Activities:	<p><b>Drop-In:</b> Day- and night-shelter with activities for abused and neglected children and children on their way to Phnom Penh. Located at the ferry terminal to assist children working at the ferry terminal and to prevent child trafficking.</p> <p><b>Residential Centre:</b> Temporary home for neglected and abused as well as for handicapped children (Maximum 55 children in Neakloeung and 30 in Phnom Penh Shelter.).</p> <p><b>Day-Care Centre:</b> For reintegrated children and neglected community children. Informal-education for up to 150 children. The goal is to integrate these children into public school.</p> <p><b>Vocational Training:</b> Informal education for up to 60 older children. (Tailor class, Construction, Motorbike-repair and Hairdressing).</p> <p><b>Medical-Clinic:</b> Basic medical-care by our doctor and, if necessary, transfer to hospital. Also open for children from the community (more than 4500 community-consultations per year).</p> <p><b>Social-Work:</b> Community-work, street-work, reintegration and follow-up.</p> <p><b>Public-School:</b> Integration, support and follow-up for children integrated into public school.</p>

Damnok Toek Neak Loeung (DTNL) is located at the Mekong river-crossing of the main road connecting Phnom Penh with Vietnam. It was the first project initiated by Goutte d'Eau Switzerland and is now officially operating as a Cambodian Non-Governmental Organisation.

Neak Loeung is a busy transit town where goods and people from Vietnam as well as from the south-eastern provinces of Prey Veng and Svay Rieng are waiting to be shipped across the Mekong.

The rural provinces of Prey Veng and Svay Rieng are among the poorest in Cambodia. During the yearly rainy season the whole area is flooded. Malnutrition, combined with water-born diseases and the absence of affordable medical-care are widespread. Numerous vulnerable children are leaving their homeland and are migrating or are trafficked to Phnom Penh with the promise to find better living conditions in the capital.

Others are leaving the countryside with their families and end up in the squatter areas of Neak Loeung. They are trying to make a living as beggars and scavengers or are selling sweets at the ferry terminal. They are vulnerable to abuse and trafficking. Without access to education and the chance to improve their living situation, they will eventually move on to Phnom Penh.

## Damnok Toek / Goutte d'Eau – Poipet, Cambodia

### Contact Details

Address: Palilai(Chankiry Point) village, Sangkat Poipet, Poipet City, Banteay Meanchey province

Contact Person/s: Mr. Sou Malai, Representative Director  
Website: <http://www.gouttedeau.org>

### About the Organization

Head of Organization: Mr. Sou Malai, Representative Director

Board of Directors:

- Venerable Keurn Pich
- Mr. Inn Chumo
- Mr. Kong Sophea
- Mrs.Prum Kimchheng
- Mr.Chann Narin
- 

No. of Staff (approx): 53

NGO Network Associates: Mith Sam Lanh, Asia Foundation, IOM, UNICEF, COSECAM

Vision: Cambodian vulnerable children (included but not limited to trafficking victims street working/street living children, disable children and children victims of any kind of exploitation or abuses) have the capacities and opportunities to equal access to children right, and basic children needs as stated by the convention on the Rights of the child.

Mission: DTP is committed to work with the most vulnerable children in Cambodia. With the support of communities, the governmental and civil society representatives. DTP identifies and implements responses to enhance the access to the better future for the most in need children.  
To assure this DTP:

- Strengthen the collaboration between Cambodian communities, governmental and civil society representatives.
- Advocate for the respect of the basic needs and children right, especially for the most vulnerable children.
- Implement with the support of communities, governmental and civil society representatives adapted answers to support the most in need children.

Objective/s: Prevention of child abuse, child exploitation, substances abuse and child trafficking (internal and cross border trafficking).

Rehabilitation of underage substance abusers disabled and traumatized children.

Integration of neglected children and street children into Khmer society through non-formal and formal education.

Reintegration of trafficked and run away children in to their culture, their communities and if possible to their families of origin.

Capacity building of local staff.

Program Areas /  
Activities:

- Drop-In Centre:** run day and night, for vulnerable and substance abusing children, providing activities and care.
- Rehabilitation Centre:** for substance abusing and traumatized children
- Reception centre:** for former trafficked children repatriated or deported from Thailand.
- Residential Centre:** for children who cannot be reintegrated into their families in the medium to long-term.
- Non-formal education Centre:** for reintegrated street children and neglected community children which offers informal education for up to 300 children with the goal of transferring them into the mainstream education system.
- Medical Clinic:** providing basic medical care for community children and children from the centre.
- Jobs Program:** to give former substance abusers the chance to receive vocational training in a business like environment.
- Social-Work:** Community-work, street-work, reintegration and follow-up.
- Public-School:** Integration, support and follow-up for children integrated into public school.

In January 1999, following a request by the Ministry of Social Affairs, Goutte d'eau Switzerland started with the implementation of a project to rehabilitate children using substances at Wat Thmey in Poipet.

Realising that the Thai authorities deported several hundred trafficked children to Poipet every month, Goutte d'eau Switzerland started to collaborate with IOM, UNICEF, MOSALVY and other agencies to set-up a new structure to offer the deported children a chance to get out of the system of trafficking.

In July 2000 MOSALVY requested us to start activities at a second location in Poipet (formerly NPA resettlement area, now at Samarkum village). Due to the growing needs and changing demands, the activities at both locations have since constantly been enlarged. Devastated by years of war Poipet has become increasingly busy since the reopening of the international border crossing. Most travel by land to the ancient temples of Angkor, Cambodia's main tourist attraction goes through Poipet. In recent years Poipet has also become famous among Thai gamblers for its Casinos. To better assist the increasing number of children begging and working in the border area, we moved the Drop-in from the town centre to the border. DTP is not planning to further extend the activities in Poipet. Our plan for the future is to complete the process of becoming a local Non-Government Organisation and to focus on strengthening and adapting the existing services.

## Healthcare Centre for Children (HCC)

### About the Organization

Head of Organization:	Ms. Ly Sotheary – Executive Director
Board of Directors:	Ms. Machiko KAIDA Mr. Hamish WEATHERLY Ms. Katie PHON H.E. Sok Sidney KER
No. of Staff (approx):	34 fixed
No. of Provincial Offices:	6
NGO Network Associates:	NGO CRC, COSECAM, ECPAT, NGO Forum, CSNACL, HACC, PADV
Vision:	Every child and woman in Cambodia is free from exploitation, abuse and human trafficking, so that contributes to their individual and community development.
Mission:	To support individual and community development in Cambodia by ensuring marginalized children and women are equipped with education, skill and employment opportunity so they can be free from exploitation, abuse and human trafficking.
Program Areas / Activities	HCC uses advocacy, awareness raising, and networking, as well as the provision of direct services, including healthcare, counselling, educational support, social and economic development, and technical support and training, to assist vulnerable women and children in Cambodia under two main programs, Prevention and Protection.

### Prevention Program

HCC has extensively formed and trained community based protection networks, which educate thousands of villagers and promote community

responsibility in the prevention of violence against women and children in Cambodia. Consisting of village and commune leaders, monks, school directors, teachers, parents, and youth leaders, HCC has formed 70 Community Based Protection Networks consisting of 2245 key members, 56 School Based Protection Networks with 776 key members, 17 Monk Based Protection Networks with 58 key members, 100 Self Help & Savings Groups, with over 1000 members, provided scholarship provision to more than 2,000 poor and at-risk students and conducted awareness raising to about 300,000 villagers on child rights, child labor, safe migration, human trafficking law, primary and reproductive health.

### **Protection Program**

HCC operates 3 shelters which investigate, monitor, and rescue cases of trafficking and exploitation, and provide support, referrals, education, vocational and life skills training, and reintegration into the community. HCC's Good Day Center in Kandal Province, has assisted 1044 young women and girls since 2002, and HCC's Temporary Shelter for women and Male Transit Shelter, in Koh Kong Province, have assisted 431 clients (147 female) since 2007.

Healthcare Center for Children (HCC) is a non-profit, non-partisan, non-religious and local non-governmental organization, established in July 1998 and registered with the Ministry of Interior in 1999. HCC has official cooperation with the Ministry of Social Affairs, Vocational Training, and Youth Rehabilitation (MoSAVY), Council for Development of Cambodian (CDC).

HCC is a member of the Executive Committees of NGO Convention on the Rights of the Child (NGOCRC) and Civil Society Network Against Child Labour (CSNACL).

HCC works in close collaboration with the Ministry of Women's Affairs, Cambodian National Council for Children (CNCC) and Ministry of Health. HCC also has a close relationship with End Child Prostitution, Abuse and Trafficking – Cambodia (ECPAT-C), NGO Forum on Cambodia and NGO Coalition to Address Sexual Exploitation of Children in Cambodia (COSECAM).

The policies of HCC are based on the international and national policies related to human rights, the worst forms of child labor, and commercial sexual exploitation of children (CSEC) including Convention on the Rights of the Child (CRC), Convention No: 182 of ILO and the World Congress against CSEC.

### About the Organization

Head of Organization: Mr. Kong Sophea, Director

Board of Directors: Mr. Kong Sophea  
Ms. Sary Deth  
Mr. Morata Satoshi  
Mr. Leguillier Dominique  
Ms. Longaliry Matherland  
HE. Sisovath Pheanurath

No. of Staff (approx): 30 (16 females)

NGO Network Associates: KMR, Homeland, IOM, TPO, TC, LICADHO, DSAVY, COSECAM, MoSAVY, Goutte d` Eau, NEP, NGOCRC, ARM, DoEYS, DoH

Vision: Our vision is for underprivileged youths to regain their dignity and self worth, becoming independent members of society.  
We are committed to protecting and promoting human rights of children and youths

Mission: KnK network Cambodia provides underprivileged youths, including former victims of trafficking and street children, those from destitute families or in prison with accommodation, physical and mental health care, basic education, vocational and life skills. We strive to facilitate their social reintegration and self-reliance.

Objective/s: To address the gap in support of street children, thereby helping youths at risk aged between 15 and 19 years old to make the transition to adulthood, and to reintegrate into society as full citizens.

To promote the reintegration of youths at risk through raising awareness of the issues faced by disadvantaged youths and street children, in collaboration with the local governments, thus enhancing the capacity building of communities and supporting organizations.

The program areas activities of KnK network Cambodia as below:

### **1) House for Youth**

KnK has assisted underprivileged youths (15 -19years of age) in Phnom Penh and Battambang province since 2000 in response to the difficult situation in these areas. Currently 57youths (23grils, 34boys) are accommodated in the “House for Youth”, which provides food, clothes, health and psycho-social care, educational opportunities, vocational and life skills training, to help their self -independence and reintegration into family and society. Support, such as tracing families, facilitating reconciliation, finding jobs or getting loans to start small businesses, is continually being provided. Even after reintegration into society, staff vital ongoing care by conducting follow-up reviews.

### **2) Alumni Club (Reintegration, follow up meeting)**

We usually organize the processing reintegration for youth into families or community after they graduated vocational skill training at KnK’s facility, and provided counselling, give advice and supporting grant or loan to them in order to run their small business and also we have regular follow up two or three times per years after reintegration to family or society. Moreover KnK has established a program is called” Alumni club” in the aim to get the information who beneficiaries of KnK that have graduated from KnK’s facility and also they have opportunity to attend meeting at KnK centre two times per year. The most important they can share their experience both in and outside the centre and their earning for their living condition to each other then they have created saving box that facilitate by KnK staff, the purpose to assist the capital or urgent need for graduates then they will payback one day when they are possible.

### **3) Professional Workshop (Educational & Vocational training skills) Educational Project**

KnK provides formal and non - formal education to youths who are accommodating in KnK’s facility.

-This year there are 35 youths who send to public school from grade 4 to 12 and there are 5 youths in University in Phnom Penh.

- For Non-formal education; we have literacy classes in the centre for youths who have got vocational training skills, there are two subjects’ Khmer lesson and Mathematic that can help them in writing, reading and calculating when they run their small business.

- Extra-Class in the centre is for children in public school who are not catching up at lesson in their class because most of them are late at school, e.g. they are 16 of age they need to study in public school at grade 5 or 6 but when they were 12 years old they study grade 3 and when they went to Thailand they gave up their study.

### **Vocational training skills**

KnK provides vocational training skills to youths who are accommodating in KnK ‘s facility both in and outside the centre such as car painting, car repairing, beauty salon, hairdressing, painting, sewing, silk weaving, rattan furniture making etc.

#### **4) Income generating**

KnK create income generating program in order to find income to support KnK's project activities and provide profit to the youths use their skill to work with KnK, such as silk weaving, sewing and rattan furniture making.

#### **5) Community Based Centre**

KnK has created the Community based centre program in 2007 in order to improve the knowledge for youths in KnK centre and children and youths come from community who from the poor families that are impossible to send their children to private school therefore they have good opportunity to attend in KnK centre as:

- English program, there are three levels
- Computer program is Microsoft Word /Excel and Photoshop for who have finished the first term and willing to upgrade.
- Library, there are a lot of children and youths come to read and researching what they need. Most children from community before and after their class they come to library so they are progressing their reading and sometimes they paint the picture.

#### **6) Children conflict with the law**

KnK has provided basic non-formal education and vocational training skills in Battambang Prison since 2002 and Banteay Meanchey Prison since 2005, in responding the complain of minors and young detainees, who have never got any chance to receive educational activities in the prisons.

KnK network Cambodia is non-government, non -profit and non-religion Cambodian NGO, which was established in January 2007 and gained an official local NGO status in July 2007. KnK network Cambodia is affiliated to Kokkyo naki Kodomotachi (KnK International) based in Tokyo, which has worked in Cambodia since September 2000. Therefore KnK network Cambodia has experience nearly 8 years of development program operation in supporting underprivileged youths in response to their critical social situation. In 2007, KnK International transferred all programs management responsibilities to KnK network Cambodia and KnK International has been providing backup as parent organization.

KnK network Cambodia (hereafter KnK) commenced its activities in Battambang province by supporting disadvantaged youths for their rehabilitation and social reintegration. Meanwhile many organizations support youth children under the age 15, KnK's targets are late teenagers through provision of "Home" (which is called "House for Youth"), psychological care, education, vocational training, and social reintegration supports.

In addition to "House for youth" project, KnK starts providing basic education and vocational skills training at Battambang Prison in 2002 and Banteay Meanchey prison in 2005, in compliance with the needs of minors and young detainees, who did not have any chance to receive educational activities in the prisons.

## Komar Rik Reay (KMR)

### About the Organization

Head of Organization: Ms. Prom Kimchheng, Director

Board of Directors: Ms. Tith Davy  
Mr. So Vanna  
Mr. Phuong Mony

No. of Staff (approx): 30 fixed

NGO Network Associates: COSECAM, KNK, Goutte d'Eau, TC Poipet, Krousar Thmey, MPK, IOM, PHARE, UNICEF, Cambo Kids, Friends, OEB, Ragamuffin, Pact, CCC, PHARE, SIPAR, SSC, PTC, DoEYS, DoSA, DoH, Local Authorities

Mission: The organization provides medium-term reception facilities and social services, including education, vocational skill training and psychosocial support. Our aim is to reintegrate children back into the community and assist them to become productive members of society.

Goal/s: To secure and facilitates the physical, mental and social development of children in need of special protection, according to their age and capacities.

Objective/s: To enable children victims or at risk of trafficking and exploitation to live and experience the educational, vocational and job replacement steps necessary to grow up as well-balanced, creative and strong adults, able to comply with their responsibilities in their work, their family and community.

Program Areas / Activities: The following is a list of KMR's program areas with examples of past activities.

- **Prevention**

The Out Reach Program refers street children back into their families and ensures follow up social work. Education is also provided to these children on child rights, reproductive health, general health, hygiene and nutrition. KMR also raises awareness in the public domain about street children and how help can be provided. Street children will only stay at the centre if they are particularly at risk from, for example, domestic violence, extreme poverty or are alone. Other street children are visited by the Outreach staff at the railway station, the market and Battambang town at night.

- **Protection**

KMR's Reception Program helps to provide children with a secure environment in which to stay. This program provides children with all of their basic needs (food, water, shelter, clothes, health education and medical checks). It also provides the children with a sense of community.

- **Reintegration**

Regular follow up from a social worker after the child has been re-established into their family for one or two years to conduct counselling and provide advice. Supporting client families to have a successful reintegration process. Evaluation is also undertaken regularly.

- **Education Program**

The Centre provides formal and non-formal education to children through the public school system. Prior to schooling, literacy classes are provided to allow for easier integration in the school system. A remedial class is held in the evenings to revise what was learnt and to go over what has not been understood. The children regularly attend the Leisure Centre for educational games and leisure activities along with children from the surrounding communities. Sporting activities take place every morning. There is one library at the centre which the children attend regularly. Other activities include Origami, embroidery and marionette shows. In 2004, 10 children were referred to receive vocational training in private shops.

- **Alternative Care Program**

KMR started its foster care program in 2004 for those children who cannot be reintegrated with their families or relatives for reasons such as abandonment, domestic violence, abject poverty, drug and alcohol issues etc. This program is informed by research showing that there are many benefits for children to grow up in a family like environment, rather than an institution, particularly for younger children's psychological development.

- **Outreach Program**

KMR then created its outreach program, which has been operational since 1998. The program officer and social workers implement this work in the streets of Battambang town, providing children with access to basic needs such as health care, education, referral to public schools, non-formal education, and leisure activities. Some harm minimisation activities include providing children with gloves, masks, HIV education and other illness prevention strategies. Children are also provided with supportive counselling, family tracing through case management, and the possibility of referral to KMR for short or longer term care if appropriate. Social Workers also actively work with older children to secure job placements or training.

Komar Rik Reay Association was founded on 1 June 1998 and registered with The Ministry of Interior on 8 October 1998. It was created to support the increasing number of street and trafficked children in northwest Cambodia who were becoming vulnerable and at risk of being exploited by human trafficking networks. Since its inception seven years ago, a Reception, Orientation and Rehabilitation Centre have been established to house these children. The centre can accommodate up to 55 children, both male and female, from the age of 5 to 18 where they can stay for 6 to 36 months.

## Kumar Ney Kdey Sangkheum (KNKS)

### Contact Details

Board of Directors: Ms. Sea Sovityea  
Mr. Eng Chhunhan  
Ms. Bouy Sinath  
Mr. Moun Hang  
Ms. Nicki D Japuras

No. of Staff (approx): 10

NGO Network Associates: COSECAM, Wathnakpheap, MoSAVY, PACT, CEDAC, LICADHO, DoSAVY, MEDICAM, HCC

Vision: A Cambodia where women and children live in peace, with security, with education and social welfare.

Mission: To create opportunities for vulnerable women, children and their communities in the areas of: livelihood; health; education; income generation and human rights through active community participation.

Objective/s: To improve the livelihood, health, human rights, education and income generation of vulnerable women & children and their communities in KNKS target areas.

Program Areas / Activities: **Education and Skills Training**  
KNKS supports community pre-school, primary schools and literacy classes in villages where government schools are not available. Education is an important component in all KNKS activities because it simulates and empowers people to participate in their own development. It provides capacity building to community teachers and Community Education Committees. Scholarships were provided to encourage girls to return to education under a selection process according to priorities. Additionally, mobile libraries are provided to support literacy and technical agricultural training.

KNKS supports skills training to children under the age of 18 from disadvantaged families through various forums.

#### **Social Welfare and Child Rights**

- KNKS promotes child rights and primary health care awareness through peer education.
- Community based networks providing social security, welfare services and case intervention.
- Child Rights are also advocated at provincial and national level through conducting public debates on issues relating to child sexual abuse, trafficking and law enforcement.

#### **Income Generation Activities**

- KNKS supports income generation activities which include agricultural training and community owned micro-finance services.
- Saving group endowment funds and rice banks are promoted to help generate additional income.
- An additional project has been established to provide opportunities for apprenticeships and employment called the Community Villa where accomplished trainees can display and sell their handicrafts and agricultural products. This villa also operates as a commercial restaurant.

#### **Community Organizing**

- KNKS strengthens the capacity of community based self-help organizations to manage their own development activities.
- Support is provided to various groups such as Village Development Communities, Social Welfare Fund Committees, Community Education Committees and Community Child/Youth Clubs.
- Training is provided on mobilizing resources, planning, budgeting, managing village based development projects and improving infrastructure.
- 

KNKS is a non-political, non-religious, non-profit making Cambodian non-governmental organization. It was established in January 2003 as part of the localization process of the Wathnakpheap Organization. It was registered with the Ministry of Interior on 18 March 2003.

No. of Staff (approx): 41

NGO Network Associates: The Global Alliance Against Trafficking in Women (GAATW), COSECAM, Migrant Forum Asia (MFA), Migrant Mekong Network (MMN)

Vision / Mission: Our vision is a just and open society in Cambodia in which human rights and the dignity of the individual are respected, within the rule of law.

Our mission is to contribute to the development of the rule of law, to promote access to justice and to protect human rights, including the rights of migrants. We aim to achieve this by:

- Making people aware of their legal
- Rights and their entitlement to pursue justice through the courts;
- Providing free legal advice and representing the most vulnerable victims of abuse and exploitation;
- Advocating for the needs of migrants in the south-east Asian region;
- Educating those in positions of authority
- On the needs of victims of crime and migrants, and how best to support them; and
- Working with government and civil society
- To develop policy and practice for a strong and sustainable legal system.

Objective/s: We have the following objectives to help us meet our mission:

- to prevent violence and abuse against

- women and children in Cambodia;
- to ensure that perpetrators of violence and
- abuse against women and children are held accountable within the criminal justice system and under the rule of law;
- to work towards the elimination of
- trafficking in persons and the exploitation of migrants;
- to train and build the capacity of civil
- society and citizens in relation to law enforcement, counter-trafficking and safe, legal migration;
- to provide technical support to
- government institutions and partners;
- to develop constructive partnerships and
- networks with other civil society organisations, both within Cambodia and across its regional neighbours;
- to be an active participant in national,
- regional and international efforts to counter trafficking and to protect the human rights of migrants; and
- to train Cambodian law students
- (including lawyers and legal assistants) and to build their capacity to support our target groups.

Program Areas /  
Activities

Our principal activities include:

- offering free legal advice, assistance and
- representation to:
  - women and children who are victims of abuse, including rape, domestic violence and sexual exploitation;
  - men, women and children who are victims of trafficking or who are subject to exploitation as a result of migration;
- providing pre-departure training on safe and legal migration to potential migrants – both those intending to migrate within Cambodia and those looking to work abroad;
- delivering training at a provincial level
- to local government, NGOs and community leaders – on how to support safe and legal migration and how to identify and address trafficking in their communities;
- working to support the Cambodian migrant community in Trat province, Thailand through a migrant support outreach programme;
- developing a migrant support network to increase service provision to the Cambodian migrant community in Thailand.

We are based in Phnom Penh and are currently active in the following Cambodian provinces:- Kandal, Kampong Cham, Prey Veng, Svay Rieng, Kampong Speu, Takeo, Kampot and Koh Kong. In addition, we are working in Cambodian migrant communities in Trat, Thailand.

LSCW is an independent and non-profit organization. LSCW was formally established on June 7 2002 and was officially registered on July 2 2002 by the Ministry of Interior. There are six legal teams, three safe and legal migration team based in Phnom Penh, one mobile legal team and two legal teams based in Prey Veng and Koh Kong. These provinces do not benefited by extensive representation; therefore, these projects aim to provide them with the opportunity to be represented, primarily by female lawyers to ensure representation is appropriate to the client and to encourage women to bring cases before courts.

### About the Organization

Head of Organization: Ms. Mao Lang, Executive Director

Board of Directors: Ms. Sim Mary  
Mr. Phoung Chea  
Mr. Kong Vutha  
Ms. Koy Phalany  
Mr. Kike  
Mr. Yazan Kopty

No. of Staff (approx): 57 staff, 30 Part-time staff, 5 volunteer, and 5 cooperation staff

NGO Network Associates: IOM, UNICEF, UNCOHCHR, Goutte d'Eau, LICADHO, Rik Reay, Trans-cultural Psycho-Social Organisation (TPO), PTD, Reproductive Health Association Cambodia (RHAC), COSECAM, AAC, CCC, NEP, Cambodia Acts

Vision: Homeland's vision is of a happy, loving and understanding family environment, which supports the full and harmonious development of children's personalities. Thus, Homeland respects and supports the efforts of parents and other caregivers to nurture and care for children in a family environment.

Mission: Homeland's mission is to improve the standard of living and well being of children by providing a safe and secure environment, educational opportunities, vocational training and the possibility of family reunification or placement.

Program Areas / Activities

- My home is not the street Project
  - Homeland provides support services to families and children living directly on the street and in slum areas. Services include non-formal education about health and safety, literacy classes, basic health care and referral, as well as washing facilities.
- Better Life with Alternative Care for Vulnerable Children Project.
  - Homeland has responded to the rise in the number of orphans and

vulnerable children by establishing a residential center and group home that provides basic care, education and social support to approximately 140 children.

### **Reintegration**

- Homeland works vigorously to reintegrate the children at its residential center back into their families. If a child's family or extended family is unable to care for the child, Homeland will reintegrate the child back into the community through one their group home. Homeland's group home provide a family like environment for children.
  - Care and Support for OVC/ PLHA families Infected and affected by HIV/AIDs Project.
    - Homeland works with a comprehensive network of people living with HIV/AIDs in villages in and around Battambang. Homeland staff and volunteers routinely visit persons living with HIV/AIDs in addition to financially supporting their medical needs.
    - Homeland also helps families support themselves financially by providing families infected and affected with HIV/AIDs with a variety of skills training and micro-credit loan and grant options.
    - Homeland facilitates seminars in communities about the myths and facts of HIV/AIDs. Homeland also targets high risk groups by education them about risk sexual behaviour and HIV/AIDs transmission and prevention.
  - Anti-Child Trafficking Project
    - In addition to providing care and rehabilitation to trafficked children, Homeland also educates communities about the dangers of child trafficking as well as how to avoid being manipulated by traffickers.
  - Overview
    - Homeland's Handicraft Income Generating Program was established in 1998. It aims to improve the ability of families to generate their own income, especially in households of women affected/infected by HIV/Aids. Our Handicraft program recently became an official member of the Artisans Association of Cambodia (AAC) as a fair trade organization.
  - Main Objectives
- Homeland's weaving at center with the following objectives :
- To help the most vulnerable of women and families especially those where women are the head of the household and those who are affected by HIV/AIDs.
  - Reduce risks associated with women finding jobs away from their community.
  - Provide skill training and small loans to the most vulnerable women, enabling them to establish small businesses in their community.

### **Our Activities**

Weaving center is a place where women receive skill training work and are given food allowances. Additionally the center also pays for medical check up costs.

About, the women are working to make traditional clothes. These clothes

are handmade and sold individually or made into products in our sewing center. Many of the items are available for sale in the café. In our sewing center, the teacher trains and mentors the women.

**Fresh Eats Café (Helping children and vulnerable women)**

The Fresh Eats Café is a newly established project by Homeland. It is designed to provide skill training as part of a rehabilitation service for orphans and vulnerable children, particularly those who have been living on the streets.

The Café is also sells items made by Homeland's Program which provides employment and support for women infected and affected by HIV/AIDs.

The Café is open daily from 6: 00 am to 6:00 pm. These hours will be revised as the café develops.

Meahto Phum Ko'mah (MPK), also known as Homeland, is a non-governmental, non-profit organisation operating with Orphans and vulnerable children, especially street children, trafficked children and children orphaned by HIV/AIDS.

Homeland was established and legally registered with the Ministry of Interior in 1997, to address the situation of children living on the streets of Battambang town and has built itself slowly and methodically over the past eleven years.

8. Francesco Caruso

No. of Staff (approx): 75

NGO Network Associates: APLE, Angkor Hospital for Children (AHC), The BHOR Arts Centre, BICE, Mith Samlanh, LICADHO, Starfish Project, COSECAM

Vision: A town where all children can grow up in their families, feeling safe, healthy and happy; a community where children learn to live together, to respect each other and have a choice about their future.

A society where children are allowed to play rather than work, and where education, medical care and safety are provided to everyone.

Mission: M'lop Tapang strives to fully reintegrate children back into education, their families and the community, thus, giving the child independence and the chance for a positive future.

M'lop Tapang strives to give these children access to learning tools, resources and opportunities to empower themselves, by providing physical and psychological necessities and education.

Goal/s:

- **Physical and emotional wellbeing of children:** Providing nutritious meals, a secure shelter, a safe environment, medical care and support, mentoring, counselling and assisting drug-addicted children in the rehabilitation process.

- **Protection from abuse:** Fighting all forms of abuse – physical, sexual and emotional – against children and combating drug addiction; providing an emergency safe haven for all children at risk.
- **Education and training:** Reintegrating children into public school and offering remedial and supplemental education to help them meet the standards of their grade level. Empowering children with skills that will permit them to support themselves and their families in the future. Providing education on child rights, drug use, health promotion and life skills.
- **Reintegration:** Assisting children with integrating back into public school, their families and the community in general.

Objective/s: To create an adequately funded centre and outreach services to provide long-term physical and emotional support for street children, as well as a safe short-term drop in centre with outreach activities. By providing assistance, guidance, education, teaching social skills and instilling family values, M'lop Tapang aims to reintegrate street children back into their communities.

Program Areas /  
Activities Some examples of MT programs are:

- **Child Protection:** The Child Protection team work very closely with vulnerable children and families in the community to educate them on methods used by sex predators, particularly when trying to endear themselves to a family or a community. Using games, DVDs and art, the team teaches younger children about the risks they face working in Sihanouk province's streets.

M'LoP Tapang has developed a youth network of around 30 at risk children who work selling fruit and handicrafts to tourists on Sihanouk province's public beaches. Meeting daily with this network allows the Child Protection Team to access a constant flow of information related to potential abusers and their contact with children.

- **Counselling and Art Therapy:** M'lop Tapang offers the services of a full-time counsellor to all of the children with whom we work. M'lop Tapang also places great emphasis on the healing potential of art therapy, a less intimidating form of counselling which can provide a channel for children to identify and address hidden issues.
- **Outreach:** M'lop Tapang's Outreach Team works to develop positive relationships with families who are unable – but not unwilling – to take care of their children. M'lop Tapang meets regularly with families and community members, local authorities, and more recently with students learning at the town's local universities.

M'lop Tapang developed a training program for young Cambodian volunteers in their early 20s who have a genuine interest in working

with vulnerable street children. To date, we have held 2 successful training sessions which focused both on classroom sessions as well as on-the-job training. M'lop Tapang has had almost 70 candidates, mostly university graduates, apply to the program.

The M'lop Tapang radio show was launched in 2007. The show airs twice weekly, providing a platform for sharing information about M'lop Tapang and the services available to community members. The program addresses a variety of social themes such as child rights, HIV/AIDS and drugs.

- **Harm Reduction:** The M'lop Tapang Drop-In Centre opens 24 hours a day, 7 days a week. In just over a year and a half of opening, 34 out of the 38 kids registered at the centre stopped using drugs. The majority of them were also successfully reintegrated into their families and those few remaining have moved into our night centre.
- **Medical:** M'lop Tapang's medical program strives to provide efficient, comprehensive, holistic and compassionate medical care for all of Sihanouk province's street children, as well as to focus on health promotion in and around the town's poorest areas. Every child that M'lop Tapang meets receives an initial medical evaluation from one of our full-time registered nurses. M'lop Tapang's main day centre houses a small medical clinic where children and families can seek care 6 days a week. They work to teach children about maintaining their personal hygiene and ensure that all M'lop Tapang children brush their teeth every day. Our medical team also travels out into the communities where we work every day, offering on-the-spot and follow-up care, assisting with referrals and dealing with emergencies.
- **Education:** One of M'lop Tapang's primary goals is to reintegrate Sihanouk province's street children into the Cambodian public school system. M'lop Tapang offers a comprehensive 'bridging' program to help children get up to speed with their studies.
- **Sports:** M'lop Tapang continues to place great value to the healing properties of sport therapy. Activities such as football, basketball and volleyball not only teach children new skills and discipline as well as developing their physical strength, they also help to build up their confidence and ability to interact socially. M'lop Tapang employs 2 full-time sports coordinators.

M'lop Tapang is a non-governmental, non-profit and non-religious organisation, created in June 2003. M'lop Tapang was created with the goal of giving street children access to the learning tools, resources, and opportunities they needed to empower themselves and become productive members of society. Since then, we have achieved this by offering regular meals, shelter, medical care, education, counselling, and protection from all types of abuse.

M'lop Tapang strives to provide a safe haven for all of the street living and street working children of Sihanouk Pr, with the ultimate goal of reintegrating them into their families and community. We believe that to reintegrate a child into a secure family environment is fundamental to their development and well-being. For this reason, M'lop Tapang partners up with families to address the

root problems that led these children to the streets in the first place. M'lop Tapang is convinced that every child who has regained a sense of self-respect and returned to live with his or her family acts as an example to many others in the community.

M'lop Tapang firmly believes that the entire Sihanouk province community benefits from supporting the development and protection of its street children. The active participation and support of local businesses and private individuals proves the community agrees! Our long-term goal is to become a program run entirely by the community, for the community.

## Protection of Juvenile Justice (PJJ)

### Contact Details

### About the Organization

Head of Organization: Ms. Sim Souyeang – Director

Board of Directors: Mr. Ang Eng Thong  
Mr. Huon Chundy  
Ms. Ly Vichuta

No. of Staff (approx): 17

No. of Provincial Offices: 3

NGO Network Associates: NGO Coalition to Address Sexual Exploitation of Children in Cambodia (COSECAM), Non-governmental Organization Committee of the Rights of the Child (NGO-CRC), End Child Prostitute, Abuse and Trafficking in Cambodia (EPACT-Cambodia), and Cambodian Human Rights Action Committee (CHRAC).

Vision: Cambodia will be a place where children are given attention and protection through the justice system of Cambodia against all kinds of abuse, trafficking, economic and sexual exploitation, mistaken or illegal detention, and torture.

Mission: PJJ plans to be a permanent independent legal center for children to deliver services of lawyers and legal defense to Cambodian children to ensure respect for and protection of the rights of child victims and defendants within the justice system.

Objective/s: To contribute to the protection and promotion of children's rights in Cambodia's justice system

Program Areas / Activities

I. Legal Service

- **Legal Consultation:** PJJ has the policy to provide free legal consultations for all kinds of clients with any problems. This activity can happen with the appointment with the lawyer at PJJ office, through phone calls, and/or during trainings. The clients can choose which lawyer they would like to discuss their problems with.

- **Legal Representation:** PJJ provides child victims and child offenders with free legal assistance including legal consultation, representation and defense through all stages of the legal process in Cambodia's justice system.

## II. Awareness-raising

- **Legal Training for Law Enforcement Officials and People in Community:** Provide legal training for community people and Cambodian law enforcement officials at operational level to improve their capabilities to effectively investigate children's cases and initiate court proceeding in accordance with existing legislations and procedures, particularly the Convention on the Rights of the Child.
- **Prevention Presentation:** Seeing the rising problems being faced by child victims and juvenile defendants, PJJ initiated this activity called Prevention Presentation in high school. The presentation also points out the problems that the innocent children might have to ensue in future should there not be any measures taken to raise their awareness of legal knowledge, the tricks used by perpetrators to deceive young girls and the legal consequences following the offenses committed by young boys.
- **Publication:** PJJ has developed, published and distributed many legal materials at no financial charge to relevant NGOs, government institutions, training participants, educational institutions and individual interested in the field of law.

## III. Social Service

PJJ has initiated the fund raising activity to help poor children with no access to education. This activity will play a key role in contributing to the reduced incidents of offenses being committed by children as well.

For the victimized girls, after they have been provided with legal representation by PJJ lawyers, PJJ social worker will cooperate with health centers or district hospitals to give the children medical services (the cost/expenses pertaining to the medical expenses are covered by PJJ). The children will be given the forensic medical examinations at hospital. In case of the serious and long-term illness, PJJ will send the children to be taken care of at private hospitals.

Upon the recovery of the children from the illness, PJJ will find the rehabilitation centers of the NGO partners for them.

PJJ provides the support for informal education of vocational trainings to the children such as sewing, hairdressing and embellishment.

Regarding the children not intending to further stay in the center, PJJ will send them to live with their parents. Moreover, PJJ will take care of them and provide medical, vocational training services.

During the vocational training course, PJJ has close relationship with provincial education department to reintegrate those children into

education system, allowing them to pursue their schooling.

Accused children and convicted juveniles shall receive care, medical treatment and health check regularly.

#### **IV. Special Activities for Child Inmates**

Every year PJJ initiated the celebration of June 1<sup>st</sup> where children in conflict with the law have a chance to enjoy this long-waiting event like other children.

Goal/s:	To provide a transit centre for children who have been trafficked or sexually exploited until appropriate alternative care can be found with an NGO shelter.
---------	--

Program Areas / Activities	<b>Transit Centre</b> Receive victims of sexual abuse, those that have been trafficked or children in conflict with the law. To offer services and shelter to them via contacting NGOs. Victims can stay at the transit centre for 24 hours during which time they are offered counselling services by a social worker.
----------------------------	--

#### **Prevention**

Conduct awareness raising on child trafficking, domestic violence, HIV/AIDS and drug abuse to communities in and around the Phnom Penh area.

#### **Reintegration / Follow-up**

Conduct reintegration for victims back into their communities and follow-up their progress and the progress of those living in NGO shelters.

SKK is part of the Department of Social Affairs and was established in order to provide services to commercial sex workers and sexually abused children in 2001. It was set up to provide a transit centre for these clients before they were transferred to alternative care at other centers. Until 2004, SKK was technically and financially supported by UNICEF. At present, it is government funded.

## Street Family Center / Ptea Teuk Dong (PTD)

### About the Organization

Head of Organization: Mr. Bun Titiyarith – Centre Supervisor

Board of Directors: N/A

No. of Staff (approx): 16 fixed (10 female), 5 managerial

NGO Network Associates: CCC, CHED, BANNEL, COSECAM, LICADHO, ADHOC, ERM, UNICEF, PJJ

Mission: To improve the quality of lives and restore the dignity of street families and victims of sexual abuse and assist them in reintegrating into society so that children have a stable environment in which to grow. Aims to increase the ability of street families to be self reliant and have a dependable income through skills training and schooling for children. Since 2001, a new project was initiated to work with girl victims of sexual abuse.

Goal/s:

- To increase the ability of street families to be self-reliant and have a dependable income through a skills training program.
- To increase literacy and other essential knowledge and life skills for living in the community (human rights, literacy, agriculture, technical training, counseling and health care).
- To provide food, temporary shelter and health care so that families have the opportunity to participate in the training.
- To provide schooling to children during their stay at the centre.
- To provide sewing training to girl victims during their stay at the centre.
- To provide sewing starting materials to the girl victims when they reintegrate into their families.
- To promote the stability and reintegration of street families into the community through the provision of a plot of land and a house and other starting materials.
- To assist families and girl victims to extend their occupation through follow up with them for three years.

Objective/s: Providing emergency rescue to street families, which includes vocational training, education on life skills, health care and formal general education for their children for 10 months at the Centre. After training is completed, it is hoped that they will have an appropriate home and skills and knowledge with which to make their own living and improve the economic situation of the family.

With the increased sexual abuse of girls under the age of 18 in the remote areas of the province, PTD set up in 2001 a program called "Girls in Development" with the purpose of assisting those girls through the provision of psychological support, capacity building and shelter within the Centre. They are taught sewing, cooking, undertake literacy classes and other general education. Until they return to their communities, they have access to accommodation, food and primary health care. Upon leaving the centre, they are provided with a sewing machine, sewing equipment and an ironing board. PTD in collaboration with other organizations gives further psychological and legal support.

Program Areas /  
Activities

In 2004, PTD provided support for 24 street families, consisting of 135 people. At the Centre, they received three meals a day, clothes, school uniforms, health care, education, vocational skills training. Upon reintegration into the community, each family received a wooden house with a zinc roof, a plot of land, household materials, materials for a job, a bicycle and food for 15 days. It is hoped that they will have the ability to generate income independently. The families will be followed up for 3 years.

Girl victims of sexual abuse live temporarily at the Centre, where they learn sewing skills, literacy, mathematics, human rights and moral lessons. They receive counseling, health care, education in hygiene, meals and clothing. After 10 months, they are reintegrated back into their families, where possible, and are given sleeping materials, a sewing machine, an iron, table and chairs, a sewing table, sewing materials and \$20. In 2004, PTD cared for 25 girls in this way. 10 girls have been reintegrated thus far.

Other activities include:

- Collaboration with Human Rights organization.
- Staff development (e.g. build technical capacity the IOs and NGOs; workshops; teach them English; computer skills).

PTD is a Cambodian non-governmental, non-profit, non-political organization which has been operating since June 1994 to improve the lives of street families and older victims (between 12 and 20) of sexual exploitation in Battambang province. It was registered with the Ministry of Interior in August 1996.

## Vulnerable Children's Assistance Organisation (VCAO)

### Contact Details

Address: #25A, Street 118, Sangkat Psar Depo III, Khan Toul Kork, Phnom Penh, Cambodia

(855) 12 876 422  
Email: [vcao@vcao.org.kh](mailto:vcao@vcao.org.kh) / [director@vcao.org](mailto:director@vcao.org)  
Contact Person/s: Mr. Chea Pyden, Executive Director,  
Website <http://www.vcao.org.kh>

### About the Organization

Head of Organization: Mr. Chea Pyden, Director

Board of Directors: Mr. Prum Thary  
Mr. Meas Samnang  
Ms. Keo Charavuth

No. of Staff (approx): Total: 76, Female: 31

NGO Network Associates: Cambodia ACTs, COSECAM, ECPAT, NGO-CRC, Artisans' Association of Cambodia (AAC)

Vision: VCAO envisions that by 2025, every Cambodian child will be able to enjoy a childhood free of human miseries in the home, with a family to care for and love them. Each child, rich or poor, is entitled to an education, a right to express their own opinions and ideas, and have emotional and physical healthcare through adequate nourishment and psychological support.

Mission: VCAO works for poor and socially vulnerable children to provide education, to build hope and promote healthy dreams for the future. Through the work of VCAO, children learn about their rights under the United Nations Convention on the Rights of the Child (UN-CRC) and are able to acquire life skills and moral support for them to develop into healthy adults.

Goal/s: VCAO development objective is: to promote affordable access of vulnerable children to quality relevant socio and economic services, mainstream their lives in society as productive workforce, and advocate for building stakeholders accountability to response to children's rights

Program Areas / Activities: There are ten program areas:  
**1. Combating and Prevention of Violence, Sexual Abuse, Village Trafficking and Exploitation Program (Village Safe Net program (VSNP))**  
**Program objective:**  
Vulnerable children are protected by communities from physical punishment and sexual abuses and are coordinated to receive social services and alternative cares based on their best interests.

## **2. Promoting Access to Primary Education**

### **Program objective:**

Vulnerable children are identified and recognised by public school administrators and communities as a focal target to be taken care of and encouraged to having access to public school and retaining in school until they complete primary education.

## **3. Community Work Skills Program**

### **Program objective:**

The poorest and vulnerable girls and youth women increased their economic status through gaining relevant agriculture and knowledge and generating their ideas to establish jobs for making income.

## **4. Center for the Development of Life proficiency and Hope Program**

### **Program objective:**

The poorest, vulnerable children and children of worst form of child labor are rescued / cared for / received skills and knowledge required and are equipped with life proficiency and fully prepared for reintegration into a welcoming society.

## **5. Care for Child Domestic Workers**

### **Program objective:**

Child domestic workers are protected and cared for, gained skills and knowledge directly related to their service, and supported to receive development opportunities in community or center based program so that they can be reintegrated into home / community.

## **6. Social Stabilization Program**

### **program objective:**

Children who are protected and cared for by the Center for the Development of Life Proficiency and Hope are reintegrated and stabilized in home and/or community.

## **7. Saving and Revolving Fund Program**

### **Program objective:**

Children have access to saving and credit revolving fund program to enable their job/business and increase their capital to sustain their job/business.

## **8. Advocacy for Children's Rights Program**

### **Program objective:**

Real Children Rights issues, which can not be solved by communities and local authorities, are brought up to provincial governors and middle level sector officials and their commitment in actions are identified and followed-up.

## **9. Information Management and Monitoring Program**

### **Program objective:**

All program operations are intervened with a common monitoring and evaluation framework which is developed in a form as data bank to inform about program progress, generate conclusions, stakeholders and public performance, and advocate for children's rights.

## **10. Organizational Development and Capacity Building Program**

### **Program objective:**

VCAO will become a resource based organization, which can share with other organizations the expertise available and will have strong organizational foundation for future institutional development.

VCAO is currently operating in Phnom Penh, Kampong Cham, Siem Reap, Takeo and Kampong Chhnang.

VCAO (Vulnerable Children Assistance Organization) is a non-profit, non-governmental organization established on June 27, 1994. This organization was created by a group of post-Khmer Rouge orphans out of their own concern for other younger children left abandoned and homeless to fend for themselves. These children are often neglected by society, with on one they can turn to for help. Due to extreme poverty, they are at risk for labour exploitation and child sex trafficking. Some children are forced into prostitution for their survival. This puts them at great risk for HIV/AIDS.

Two decades of war have created multiple generations of orphans, who receive little or no education. It is in every child's right to enjoy the comfort of a home and family, but the reality for Cambodian children is often harsh, full of struggles for survival. They have to work in extreme hardship in places that make them vulnerable to diseases, malnutrition and even death. For example, thousands of children work at municipal dumpsites in Phnom Penh and in other cities in the country. Some get run over by garbage truck or get buried in the heap as they fight for recyclables.

No. of Staff (approx): 46

NGO Network Associates: ECPAT, NGO CRC, VTC, COSECAM, CEDAC, CCC, NEP, Vocational Training for Disabled People, PK, KNKS, AK

Vision: To build Cambodia through communities.

Mission:

- To contribute to improving opportunities for disadvantaged children, women and their families
- To foster children's rights in Cambodia.

Goal/s:

- To improve the quality of life of disadvantaged women, children and other vulnerable groups through community based and locally initiated activities and by linking development with the local culture and needs of the people.
- To facilitate self-reliant development in communities by using largely internal resources with the aim of improving the quality of communal life to benefit all members of the community, especially children.
- To identify rural areas in Cambodia where communities are eager for development
- To identify and build the capacity of local groups and individuals to plan and implement community development with a focus on marginalized children and youth
- To form and train organizations, at district and provincial levels, with the aim of passing over projects to local NGO partners. In this regard, provides training, technical support and organizes external monitoring and evaluation.
- To secure funding for projects by assuming accountability and

responsibility for professional quality of work and proper use of donor funds.

Program Areas /  
Activities

WP covers the following program areas: Social welfare and child rights, education and skills training, income generating activities and capacity building. Job counseling has recently been introduced in the Svay Rieng province curriculum.

The following are examples of past activities:

- International Children's Day (at community and district levels, e.g. district concerts and awareness raising
- Community Child and Youth Club / CYC to promote education through an enrolment campaign, community libraries (both fixed and mobile) and peer education.
- Workshop training (e.g. on community child protection) and public debates on law enforcement.
- Village Health Volunteer
- Integrate non-formal education curriculum (pre-school, primary and literacy level) into the community.
- Integrate a curriculum of skills training and Development Service Centers into the community.
- Participation in Child Labor Committee at national level.
- Annual public debate on law enforcement against the sexual abuse of children at a provincial level.
- Biannual workshop on Community Child Protection at a district and provincial level.
- Building the capacity of CYC (district and village levels) and Social Welfare Fund (community level).
- Action to improve complaint and legal support systems.
- Social work training to Community Watch team and SWFC for intervention and referral cases of child abuse.
- Legal aid to CEDCs / families in cases of child abuse
- Promoting child protection network at community and district level.
- Participation in regional ECPAT International meeting.
- Participation in World Congress Combating Trafficking and Commercial Sexual Exploitation of Children.
- Training of ministry officials and concerned institutions in how to rescue child victims or children at risk for rehabilitation and capacity development.
- Youth apprenticeship training at private workshops.
- Follow up and monitoring via community meetings, field work and visits, management meetings, regular reports, databases, etc.

No. of Staff (approx): 900 fixed

NGO Network Associates: COSECAM, CEDAW, LICADHO, MoWA, MoSVY, MoI, CAMBO, MoJ, PJJ, IJM, WHI, CHAB DAI, LSWC, CDP, Local Authority, MoH, MoEYS, MoRD, MoAG

Vision: *Our vision for every child, life in all its fullness. Our prayer for every heart, the will to make it so.*

Mission: *World Vision is an International partnership of Christian whose mission is to follow our Lord and Saviour Jesus Christ in working with the poor and oppressed to promote human transformation, seek justice and bear witness to the good news of the Kingdom of God.*

Objective/s: *Empowering communities and transforming systems and structures to improve the well being of vulnerable children.*

- Growth integration and consolidation in programs
- Growth of child-focused community development through ADPs;

integration of sector interventions within community based ADPs; consolidation of responses to special needs of vulnerable groups and communities; integration of Christian witness in all programs; integration of support service in all program areas.

- Build human capacities of our partners
- Communities for local governance and sustainable development; Government and NGO partners through mutual learning; Cambodian Church in leadership, unity and holistic ministry.
- Transform and build staff and organization:
- Nurturing and building a united Christ centered team; developing WVC staff for nationalization of leadership and governance; maximizing accountability, efficiency and good stewardship; continually striving to be a learning organization.

Program Areas / Activities      WVC work in 9 provinces with 38 Area Development Programs (2-5 projects each) and 45 non-ADP sector projects.

Our ADP approach focus on empowering community partners to enhance & sustain child well being, with programs lasting up to 15 years.

The ADP aims to be holistic and empowering, typically working in a range of sectors (e.g. Health & nutrition, education, disaster risk reduction, child protection, economic development, HIV & AIDS, water & sanitation).

**Area Development Programme:** Through long-term projects, known as Area Development Programmes (ADPs), WVC staff work side-by-side with community members to fight the causes of poverty and realize their basic rights to good health, education, nutrition, fair income and participation in civil society.

Funded primarily through child sponsorship, ADPs represent a long-term commitment to achieve community self-sufficiency.

At full capacity, each ADP works with around 4000 households (20-25,000 persons), in 20-30 villages on average.

**Child Sponsorship:** Almost 57,000 children are registered for sponsorship (FY09) in ADPs around the country.

Sponsored children are chosen to represent and reflect the diversity of their villages, which are prioritised according to level of need to improve child well being and reduce poverty.

Funding from child sponsorship supports integrated, multi-sectoral and long-term development programs for the communities.

**Food and Water Security:** Cambodia suffers from too much water in the Monsoon season and not enough during the dry season. Large-scale method to harness the water for use in agriculture is almost non-existent.

**Education:** WVC has committed to addressing the social& economic barriers to the poor (esp. girls) for receiving an education at and beyond the primary

level, and has developed an education strategy accordingly.

***Nutrition & Health:*** *Health is an important focus for WVC's holistic community development. WVC partners with over 70 government health centres in 9 provinces.*

**Peace and Justice:** Focus on the difficult social issues, building peace in communities, reducing domestic violence, mending broken relationships. Current projects in this program focus on gender-based violence, anti-trafficking and child sex tourism, mobilizing communities for child protection, addressing child labour.

**HIV/AIDS:** WVC's response to HIV/AIDS focus on:

- Behaviour change community.
- Community awareness
- Voluntary counselling and testing.
- Home and community based care.
- Capacity building for community and project partners.

**Vision Fund Cambodia:** Focus on partnering with poor families as they establish secure, health and dignified lives, micro-credit is an integral part of WVC's ministry. Vision Fund Cambodia (VFC) was established as a limited liability, Micro-Finance Institution in 2004. VFC provides affordable loans, especially to women, in WVC's ADPs, therefore enhancing the sources of affordable, convenient and accessible finance.

### **Three Focus Areas for Mainstreaming**

1. **Gender:** Internally we are implementing the WVC Gender Policy that promotes diversity and gender balance at all levels. Externally, we are committed to equitable gender roles and relationships at communities will reflect this.

2. **Christian Commitment:** Employ process and action that integrate intentional Christian Witness without proselytise, Build Partnerships with local churches.

3. **Child Protection:** Implement according to the WVC Child Protection Policy. We are conscious that it is our responsibility to preserve the dignity of children, their families and communities as we work to pursue the fullness of life for all Cambodia.

### **The Neavear Thmey Center**

The Neavea Thmey Centre (NVT)/ Trauma Recovery Project (TRP) has been providing services to young Cambodian women since September 1, 1997. It is located in Phnom Penh city. The centre has since served 785 female youth ages from 9 to 17 years and has successfully reintegrated 667 back to their families, communities or placed in a long term foster or small group homes. The project provides medium term (one year) psychosocial support to sexually exploited or trafficked girls admitted to the centre with one year follow up in the communities after reintegration. The beneficiaries at the centre receive nurturing, protective and supportive services including medical care, psychosocial counselling and access to recreation facilities. The girls attend non-formal education and vocational skill training to enable them start income generating activities once they are reintegrated back to their original

community. The project provides assistance to reintegrated girls to establish income-generating activities such as material supports for weaving, knitting, tailoring and support for cows, etc. In addition, the project provides legal support to survivors and their families to bring offenders to justice. With the aim of increasing awareness and public understanding on children's right, trafficking, domestic violence, etc., the project conducts community education through outreach activities within and outside World Vision Cambodia operation areas.

## History

- World Vision is an international Christian humanitarian organization working with the poor and oppressed to promote human transformation and justice. WVC started in Asia in 1950 and now operates in more than 80 countries across six continents through community development, emergency relief, advocacy, public awareness and initiatives serving the church. These activities are carried out regardless of race, religion or political affiliation and on a non-profit basis.
- WVC is one of the oldest and largest non-government organization (NGO) in Cambodia with a team of 900 full-time staff, plus more than 650 part-time staff, interns and volunteers. World Vision Cambodia manages an annual budget of around US\$ 19 million.
- World Vision first began work in Cambodia in 1973 with wartime emergency relief and the establishment of the National Paediatric Hospital to care for children.
- Our early work then extended to livelihoods activities such as irrigation, agriculture and cottage industries such as basket making.
- 270 staff worked for WVC prior to 1975 when the country fell to the Khmer Rouge. Only three staff survived the Khmer Rouge time period.
- WVC was one of the first NGOs to resume its operation after the fall of Khmer Rouse, in late 1979.
