FOREWORD

The official poverty monitoring system (PMS) in the Philippines relies mainly on family income and expenditure surveys. Information on other aspects of well-being is generally obtained from representative health surveys, national population and housing censuses, and others. However these surveys and censuses are (i) too costly to be replicated frequently; (ii) conducted at different time periods, making it impossible to get a comprehensive profile of the different socio-demographic groups of interest at a specific point in time; and (iii) have sampling designs that do not usually correspond to the geographical disaggregation needed by local government units (LGUs). In addition, the implementation of the decentralization policy, which devolves to LGUs the function of delivering basic services, creates greater demand for data at the local level.

The Community-Based Monitoring System (CBMS) seeks to address these gaps by providing data at the local level appropriate for diagnosing the cause and extent of local poverty, formulating appropriate policies and programs, identifying eligible beneficiaries, and assessing the impact of policies and programs. It also supports the decentralization process by capacitating the LGUs to collect, analyze, and use data in local planning, budgeting, and program implementation.

This volume of statistical tables and poverty maps of seven provinces generated through the CBMS methodology represents part of what we hope will be a series of publications that will emerge from the collaborations between the CBMS Network Coordinating Team and its partner-LGUs. These partnerships have been in place for several years now, and these partner-LGUs are finally enjoying the fruits of their hard labor.

The CBMS poverty maps will identify who and where the poor are as they provide a comprehensive picture of the different faces of poverty in different parts of the country. They will also aid in identifying the most pressing needs of the community, assist in prioritizing interventions to address these needs, and facilitate the targeting of programs for those who need the assistance most.

The provinces featured in this volume are Agusan del Norte, Biliran, Camarines Norte, Eastern Samar, Marinduque, Romblon, and Siquijor. The statistics presented in this report are based on the CBMS surveys conducted in these provinces during a 3-year period: 2005–2007.

It is hoped that this publication will provide the necessary data to facilitate evidence-based decision-making toward improving local governance and reducing poverty in the country.

CELIA M. REYES

Co-Director, Poverty and Economic Policy (PEP) Research Network
and CBMS Network Leader

INTRODUCTION

Considered a foremost legislation that ushered in a new era of local governance, the Local Government Code (LGC) of 1991 has paved the way not only for greater autonomy but also for increased expenditure responsibility and revenue authority of local government units.

Since then, the local government units (LGUs) have assumed a greater role in local government management and service delivery. The devolution is substantial not only in the magnitude of responsibilities that were shifted to LGUs but also in the amount of resources now at their disposal to effectively discharge the devolved functions. Today, LGUs have access to multiple revenue sources, chief of which is their share in the national internal revenues—the Internal Revenue Allotment (IRA). For the period 2006–2009, the average IRA per year is P172.4 billion (see Table 1).

Table 1. Internal Revenue Allotment of Local Government Units, 2006–2009

Year	Amount (in P billion)
2009	201.3
2008	169.9
2007	183.9
2006	134.5
TOTAL	689.6
Ave. per year	172.4

Source: DBM

While experts agree that local governments are not awash with cash, the P689.6 billion worth of IRA that the LGUs have received over the 4-year period is certainly a big amount. This underscores the importance of making sure that LGUs are equipped with the right tools, systems, and procedures to ensure an effective use of these public financial resources. One way to do this is by providing them access to comprehensive socioeconomic data, on the basis of which they can craft their development plans and budgets.

Statistical Issues and Concerns at Subnational Level

With decentralization, the types of data demanded by a wide range of users—policymakers, program implementers, civil society, and others—are changing. Data disaggregated to correspond to the different levels of government are needed by LGUs to adequately assess local situation. Moreover, longitudinal data are needed to track welfare changes over time. Household-level data are also needed to identify eligible beneficiaries of different programs.

In 2005, 14 years after the LGC enactment, the ADB-WB released a report highlighting statistical issues and concerns at the subnational level. It said: “The most comprehensive and consistent comparative subnational data is at the regional level although this is simply an administrative level of government that has no responsibilities for delivery of social services. More data is gradually becoming available at the provincial level, but not at lower levels, which are at the frontline of efforts to reduce poverty.”¹

Local Poverty Monitoring Systems Rise up to the Challenge

Owing to still unresolved statistical issues and concerns at the subnational level, an increasing number of LGUs all over the country have taken the initiative to establish their own Community-Based Monitoring System (CBMS). As of November 16, 2009, CBMS is being implemented in 59 provinces (31 of which are implementing the system province-wide), 667 municipalities, and 41 cities, covering a total of 17,244 barangays. Data generated by CBMS have so far been used in diagnosing the nature and extent of poverty in their localities, identifying appropriate interventions, identifying eligible beneficiaries of poverty reduction programs, and assessing the impact of some of these programs.

National government agencies have likewise taken notice of the CBMS initiative. Today, CBMS is recognized as a tool for (i) building the capacity of LGUs on poverty diagnosis and planning, (ii) localizing the Millennium Development Goals (MDGs), and (iii) generating local poverty statistics for evidence-based development planning and budgeting.

Parallel with efforts to establish databanks at each geopolitical level, an initiative on building the national repository of CBMS data has also been jumpstarted with the installation of the repository at the National Anti-Poverty Commission (NAPC) and at the Department of the Interior and Local Government (DILG). The national repository is envisioned to facilitate data sharing across government agencies, private sector, donor agencies, and other relevant stakeholders. Specifically, the national repository will (i) facilitate the access and use of the integrated CBMS database by national entities in their advocacy work with key decisionmakers, (ii) support government and non-government funding sources in strengthening evidence-based planning and monitoring and in aligning their interventions to national priorities, and (ii) facilitate the implementation of targeted programs.

Concluding Remarks

Public statistics will increasingly shape public agenda at the local level as more and more LGUs establish their own monitoring systems to make their development planning processes more efficient and effective. In this scenario, local poverty monitoring systems such as the CBMS will have an extremely important role to play.

The country's experience with local-level poverty monitoring systems clearly demonstrates that there can be a comprehensive picture of the poverty situation. Very few, if any, national surveys collect information on the different dimensions of poverty. There is a survey on income and expenditure, another on health, another on education, another on employment, another on nutrition, and others. As the samples and the reference periods are different, there is no comprehensive picture of the poverty status of the population at any point in time. This is where CBMS can make the difference as it addresses these gaps through its set of core indicators relating to the different dimensions of poverty.

EXPLANATORY TEXT

A. CBMS Core Indicators

All the statistical tables and poverty maps presented in this volume pertain to the CBMS Core Indicators (also known as Core Local Poverty Indicators¹) which were generated using the CBMS methodology.

Box 1. Community-Based Monitoring System

The CBMS is an organized way of collecting ongoing or recurring information at the local level to be used by local governments, national government agencies, NGOs, and civil society for planning, budgeting, and implementing local development programs, as well as for monitoring and evaluating their performance. Fundamentally, it is a tool for improved local governance and democratic decision-making that promotes greater transparency and accountability in resource allocation.

It involves the following steps:

- Step 1 – Advocacy/organization
- Step 2 – Data collection and field editing
- Step 3 – Data encoding and map digitization
- Step 4 – Data consolidation, database-building & poverty mapping
- Step 5 – Data validation and community consultation
- Step 6 – Knowledge (database) management
- Step 7 – Plan formulation
- Step 8 – Dissemination, implementation, and monitoring

The CBMS Core Indicators are a set of carefully selected indicators which capture the multiple dimensions of poverty. They define the basic criteria for attaining a decent quality of life and correspond to the minimum basic needs covering (a) health; (b) nutrition; (c) housing; (d) water and sanitation; (e) basic education (f) income; (g) employment; and (h) peace and order. Together, these indicators provide information not only on how poor a community is, but also on who in the community is poor, and where.

¹ The Department of the Interior and Local Government (DILG) has issued Memorandum Circulars 2003-92 (April 2003) to set policy guidelines for the *adoption of the 13 core local poverty indicators* for planning and 2004-152 (November 2004) to encourage LGUs to intensify efforts toward the achievement of the millennium development goals (MDGs). The latter circular also enjoins LGUs to use monitoring systems such as MBN-CBIS, **CBMS**, IRAP, etc., to monitor and diagnose the nature and extent of poverty. CBMS was adopted by the DILG as the data collection and processing system for the CLPIMS which was the tool adopted to monitor the MDGs for LGUs.

The CBMS Core Indicators are presented in Table 1 below.

Table 1. The CBMS Core Indicators

BASIC NEEDS	CORE INDICATORS	Computation/Formula	Simple Scoring
A. Health	1 Proportion of children under 5 years old who died	Total number of children aged 0 to less than 5 years old who died divided by (the sum of total number of children aged 0 to less than 5 years old plus the total number of child deaths 0 to less than 5 years old)	One (1) if the household has a member under 5 years old who died; zero (0) otherwise.
	2 Proportion of women who died due to pregnancy related causes	Total number of women who died due to pregnancy related causes divided by (the total number of children less than one year old plus total number of women who died due to pregnancy related causes)	One (1) if the household has a female member who died due to pregnancy-related causes; zero (0) otherwise.
B. Nutrition	3 Proportion of children aged 0-5 years old who are malnourished	Total number of children aged 0-5 years old who are moderately or severely underweight over total number of children aged 0-5 years old	One (1) if the household has a member 0-5 years old who is malnourished; zero (0) otherwise.
C. Housing	4 Proportion of households living in makeshift housing	Total number of households living in housing with makeshift roof and/or walls over total number of households	One (1) if the household lives in makeshift housing; zero (0) otherwise.
	5 Proportion of households who are informal settlers	Total number of households occupying house and/or lots without permission of owner over total number of households	One (1) if the household is an informal settler; zero (0) otherwise.
D. Water and Sanitation	6 Proportion of households without access to safe water supply	Total number of households without access to community water system, artesian deep and shallow wells or bottled water over total number of households	One (1) if the household does not have access to safe water supply; zero (0) otherwise.
	7 Proportion of households without access to sanitary toilet facilities	Total number of households without access to water-sealed toilet or closed pit over total number of households	One (1) if the household does not have access to sanitary toilet facilities; zero (0) otherwise.
E. Education	8 Proportion of children aged 6-12 years old who are not attending elementary school	Total number of children aged 6-12 years old who are not attending elementary school over total number of children aged 6-12 years old	One (1) if the household has a member 6-12 years old not attending elementary school; zero (0) otherwise.
	9 Proportion of children aged 13-16 years old who are not attending secondary school	Total number of children aged 13-16 years old who are not attending secondary school over total number of children aged 13-16 years old	One (1) if the household has a member 13-16 years old not attending secondary school; zero (0) otherwise.
	8-9 Proportion of children aged 6-16 years old who are not attending school	Total number of children aged 6-16 years old who are not attending school over total number of children aged 6-16 years old	One (1) if the household has a member 6-16 years old not attending school; zero (0) otherwise.
F. Income	10 Proportion of households with income below the poverty threshold	Total number of households with income below the poverty threshold over total number of households	One (1) if the household has per capita income below poverty threshold; zero (0) otherwise.
	11 Proportion of households with income below the food threshold	Total number of households with income below the food (subsistence) threshold over total number of households	One (1) if the household has per capita income below food threshold; zero (0) otherwise.
	12 Proportion of households who experienced food shortage	Total number of households who experienced food shortage over total number of households	One (1) if the household has experienced food shortage; zero (0) otherwise.
G. Employment	13 Proportion of persons in the labor force who are unemployed	Total number of persons aged 15 and above who are not working but actively seeking work over total number of labor force	One (1) if the household has unemployed member/s; zero (0) otherwise.
H. Peace and Order	14 Proportion of persons who are victims of crimes	Total number of persons who are victims of crimes over total population	One (1) if the household has victim/s of crime; zero (0) otherwise.
CBMS Composite Indicator	Average number of unmet needs	Sum of unmet needs of households over total number of households	Sum of the scores (number of unmet needs) of the 14 indicators.

The poverty and food thresholds used are presented in Table 2.

Table 2. Poverty and Food Thresholds

Province	Census year	Reference year	Poverty Threshold		Food Threshold	
			Urban	Rural	Urban	Rural
Marinduque	2005	2004	12,949	12,949	9,049	9,049
Biliran (Cabucgayan)	2005	2004	12,100	10,700	8,350	7,746
Biliran (rest of the province)	2006	2005	12,966	12,137	8,948	8,786
Eastern Samar (7 municipalities)	2005	2004	10,443	11,638	8,196	8,352
Eastern Samar (15 municipalities)	2006	2005	11,566	12,659	9,078	9,085
Eastern Samar (Taft)	2007	2006	14,235	13,777	9,795	9,813
Camarines Norte	2006	2006	17,797	13,632	11,333	9,425
Agusan del Norte	2007	2006	14,964	13,059	10,158	9,208
Romblon	2007	2006	14,378	12,162	9,848	8,795
Siquijor	2006	2005	12,016	12,016	7,656	7,656

B. Authority for the Survey

The National Statistical Coordination Board (NSCB) has issued Resolution No. 6 (2005) which recognizes and enjoins support to the CBMS as a tool for strengthening the statistical system at the local level. It also directs the NSCB Technical Staff to initiate and coordinate an advocacy program for the adoption of the CBMS by the LGUs, through the RSCCs, the technical arm of the NSCB Executive Board in the regions.

The NSCB has also approved the CBMS Survey Instruments (NSCB Approval No. DILG-0903-01)

C. Survey Operations

All survey operations were undertaken under the supervision of the CBMS Technical Working Groups (TWGs) at the Provincial and Municipal Levels. They identified the local personnel who were trained as enumerators and field supervisors. Technical assistance was provided mainly by the PEP-CBMS Network in collaboration with the Department of the Interior and Local Government (DILG) and the National Anti-Poverty Commission (NAPC).

Training was mainly conducted at two levels. The first level training (Training of Trainors) is conducted for members of the TWGs. This is usually conducted by members of the research staff of the CBMS Network and CBMS accredited trainers from the DILG and NAPC. Meanwhile, a second level training (Training of Enumerators) is conducted for enumerators who are usually composed of barangay health workers and students. The members of the TWG acted as trainers in this training.

D. Data Processing System

The CBMS Data Processing System includes the CBMS Data Encoding System, Statistics Simulator (StatSim) and the CBMS-Natural Resources Database (*Refer to Figure 1 & 2 for flow of data processing*).

The CSPro-based (Census and Survey Processing) Encoding System converts survey data into electronic data. It produces text files (ASCII) described by data dictionaries, which adds flexibility to the output data. This feature facilitates the interface between the CBMS data and other database systems and statistical softwares.

The CBMS-Natural Resources Database (NRDB) is capable of creating and storing spatial (shapefiles) and non-spatial (texts and numbers) data as well as generating maps, reports and graphs ideal for presentation and analysis of poverty attributes in the community. This has significantly addressed the need for a simple yet powerful and free geographically oriented database.

Meanwhile, the data presented through poverty maps using the CBMS-NRDB are processed using the CBMS StatSim which has been developed to address the particular need of local government units (LGUs) to harness outputs from the CBMS Database such as custom tables, reports, case lists and queries. The StatSim simulates simple computations and tabulations usually done through statistical software or other tabulation applications, and also exports indicators and statistics for use in dissemination such as tables and maps.

These software are provided for free to CBMS-implementing LGUs.

E. CBMS Poverty Maps

The poverty map for each indicator is prepared at two levels. First level is the provincial map disaggregated by municipality while the second map is provincial map by barangay.

A simple color scheme is used for the poverty maps. Green, light green, pink and red represents the four ranges of data for each indicator. Each indicator, however, used a different range relative to the national data (Table 2). Color ranges used for the maps are common for all the data of all the provinces in this publication for comparison purposes.

Table 3. Color Ranges for Poverty Maps

BASIC NEEDS	CORE INDICATORS	Color Ranges			
		Green	Light Green	Pink	Red
A. Health	1 Proportion of children under 5 years old who died	0-5	5.01-10	10.01-15	15.01-100
	2 Proportion of women who died due to pregnancy related causes	0-5	5.01-10	10.01-15	15.01-100
B. Nutrition	3 Proportion of children aged 0-5 years old who are malnourished	0-5	5.01-10	10.01-15	15.01-100
C. Housing	4 Proportion of households living in makeshift housing	0-1	1.01-2	2.01-3	3.01-100
	5 Proportion of households who are informal settlers	0-1	1.01-2	2.01-3	3.01-100
D. Water and Sanitation	6 Proportion of households without access to safe water supply	0-25	25.01-50	50.01-75	75.01-100
	7 Proportion of households without access to sanitary toilet facilities	0-25	25.01-50	50.01-75	75.01-100
E. Education	8 Proportion of children aged 6-12 years old who are not attending elementary school	0-5	5.01-10	10.01-15	15.01-100
	9 Proportion of children aged 13-16 years old who are not attending secondary school	0-5	5.01-10	10.01-15	15.01-100
	8-9 Proportion of children aged 6-16 years old who are not attending school	0-5	5.01-10	10.01-15	15.01-100
F. Income	10 Proportion of households with income below the poverty threshold	0-10	10.01-20	20.01-30	30.01-100
	11 Proportion of households with income below the food threshold	0-10	10.01-20	20.01-30	30.01-100
	12 Proportion of households who experienced food shortage	0-5	5.01-10	10.01-15	15.01-100
G. Employment	13 Proportion of persons in the labor force who are unemployed	0-3	3.01-6	6.01-9	9.01-100
H. Peace and Order	14 Proportion of persons who are victims of crimes	0-4	3.01-7	6.01-10	9.01-101
CBMS Composite Indicator	Average number of unmet needs	0-1	1.01-2	2.01-3	3.01-100

F. Limitations of the Data

While observations are taken from the entire population, the user of the data presented in this report should bear in mind that the municipalities in two provinces (Eastern Samar and Biliran) were not able to collect their data over the same period. Moreover, due to some difficulties, the CBMS census could not be carried out in 1 barangay in Romblon, and 2 barangays each in Camarines Norte and Eastern Samar.

Estimates on poverty and subsistence incidence may also be affected by under- and/or over-reporting of income or reluctance on the part of the respondents to reveal their true levels of income. As in other surveys, the CBMS enumerators may also have encountered interview non-response and item non-response.

**Republic of the Philippines
Province of Agusan del Norte
Office of the Governor**

Message

The 1987 Philippine Constitution is steep in provisions relating to Social Justice that clearly focuses on the upliftment of the socioeconomic conditions of our people. Building upon these fundamental legal postulates aimed at reducing poverty, the National Government and the local government units draw development programs aimed at ameliorating the plight of the poor.

Germane to this, the crucial question to be posed—as the Community-Based Monitoring System rightly formulates—is: “who the poor are, where they are, and why they are poor.”

The answers to these quantitative and qualitative queries are all contained in this publication dubbed as “The Many Faces of Poverty (Volume 1).”

Albeit, the fact that the poverty figures documented herein are gloomier than that of the National Statistical Coordination Board (NSCB) official Agusan del Norte poverty incidence number, the somber statistics should not be a cause for controversy, but must rather serve as a clarion call for charting our constituents’ progressive future.

I deem this document as the fruition of our collaborative effort with the National Anti-Poverty Commission (NAPC). I know that this effective well-researched tool provides the Provincial Government of Agusan del Norte (PGADN) with a “strategic framework” for its own poverty reduction program.

ERLPE JOHN M. AMANTE
Governor

**Republic of the Philippines
Province of Biliran
Office of the Governor**

Message

Warmest felicitations to the PEP-CBMS Network Coordinating Team for hosting the 6th CBMS National Conference on December 8-10, 2009 and for producing a noteworthy initial publication of *The Many Faces of Poverty*, which depicts the poverty situation in seven selected provinces of the country using the CBMS Poverty Maps.

The Provincial Government of Biliran sincerely extends its gratitude to the people and agencies comprising the PEP-CBMS Network, and to other concerned agencies and stakeholders, both from the government and the private sector as well as the international community, for including Biliran among the priority LGUs in the successful implementation of the Community-Based Monitoring System (CBMS) Project in the Philippines.

The CBMS Poverty Maps and other vital information contained in *The Many Faces of Poverty in the Province of Biliran* pinpoint who and where the poor Biliranons are, and provide us telling signs on why they are poor. With concrete information on hand, our local planners, decision-makers, and project implementers can adopt more responsive and effective policies, programs and projects, and services to our constituents through focused targeting of resources. Getting our communities out of the “red” is a great yet realizable challenge, and will entail our firm resolve and commitment to reducing the extent of poverty and initiating essential socio-economic reforms in our province.

Once again, thank you and congratulations.

ROGELIO J. ESPINA, MD, FPOA
Governor

The Many Faces of Poverty in the Province of Biliran

CBMS Core Indicators, Province of Biliran, 2005-2006

INDICATOR	Households		Population	
	Magnitude	Proportion	Magnitude	Proportion
DEMOGRAPHY				
Population	30763		144305	
Average household size	5			
Children 0-5 years old			20635	
Children 6-12 years old			28045	
Members 13-16 years old			14896	
Members 6-16 years old			42941	
Members 10 years old and above			107689	
Members of the labor force			51127	
HEALTH AND NUTRITION				
children 0-4 year old who died			93	0.6
women who died due to pregnancy related-causes			9	0.3
malnourished children 0-5 year old			1124	5.4
HOUSING				
households living in makeshift housing	1230	4		
households who are informal settlers	1037	3.4		
WATER AND SANITATION				
households without access to safe water supply	1980	6.4		
households without access to sanitary toilet facilities	8785	28.6		
BASIC EDUCATION				
children 6-12 years old not attending elementary			6558	23.4
children 13-16 years old not attending high school			6507	43.7
children 6-16 years old not attending school			7489	17.4
INCOME AND LIVELIHOOD				
households with income below poverty threshold	19941	64.8		
households with income below food threshold	16217	52.7		
households who experienced food shortage	3980	12.9		
Unemployment rate (15 years old and above)			11408	22.3
PEACE AND ORDER				
victims of crime			632	0.8

**Republic of the Philippines
Province of Camarines Norte
Office of the Governor**

Message

This is to congratulate the CBMS Network Team for coming up with the First Volume of CBMS Poverty Maps that will show spatial representation and analysis of human well-being indicators.

The initiatives brought by the CBMS is a breakthrough in development planning. The planning sectors of all agencies and the LGUs are basically dependent on data, which were truly a “scarce resource” in the past. With the implementation of the CBMS, all the LGUs are now equipped with realistic data taken actually from the ground.

We at the LGUs really appreciate the kind of data and information that CBMS provides. We have never imagined in the past that poverty data at the local level can be so complete, detailed and easy to comprehend. We owe this to the strategy used by the CBMS in generating the data and in utilizing people in the barangay who are familiar with the area and have a feel of the needs of the community in particular. These data taken from the barangays are the basic inputs in the development planning of higher level LGUs and national line agencies. Through these, it is expected that in due time, the problem on poverty will eventually be addressed at a faster pace.

The Local Executives are looking forward to transforming our respective LGUs into poverty-free political units. With the aid of CBMS data, it has been easier for us to identify socio-economic projects for a particular sector of the community. With CBMS data at hand, it was very easy for us to know where to put water and sanitation projects, to identify communities where activities on malnutrition need to be focused on, and to determine other needs as pinpointed in specific areas.

Our province is very fortunate for being one of the beneficiary provinces of the CBMS. We know that our counterpart is very minimal compared to the benefits that we are reaping right now. With this, we hope that the CBMS Network Team will never cease with this kind of endeavor. The vulnerable sectors of our society are in the barangay and so it is very appropriate that the data that we produce are not just barangay-based, but household based as well.

To the CBMS people, our heartfelt thanks and appreciation to what you have shared with us. May our partnership prosper in bridging the development gaps through the production of relevant data and information.

God Bless everyone.

JESUS O. TYOCO, JR.
Governor

The Many Faces of Poverty in the Province of Camarines Norte

CBMS Core Indicators, Camarines Norte, 2006

INDICATOR	Households		Population	
	Magnitude	Proportion	Magnitude	Proportion
DEMOGRAPHY				
Population	100784		485707	
Average household size	5			
Children 0-5 years old			74868	
Children 6-12 years old			92106

**Republic of the Philippines
Province of Eastern Samar
Office of the Governor**

Message

GREETINGS FROM THE PEOPLE OF EASTERN SAMAR!

The publication of the first volume of the Community-Based Monitoring System (CBMS) Poverty Maps of 7 provinces implementing the CBMS in the country will indeed be of great use for us local chief executives as well as policymakers and development planners. With less time to read voluminous statistical publications, the availability of poverty maps will help us prioritize our investments at a glance. My pro-poor development agenda entails investing a bigger capital on human capital and the poverty maps will serve as my guide posts.

Let me thus take this opportunity to thank the CBMS Network, the Department of the Interior and Local Government (DILG), NAPC, UNDP, UNFPA, IDPG, VSO Philippines, our 23 LGU partners and all those who have made the implementation of the CBMS Program in our province a success.

May this partnership strengthen our efforts to address debilitating poverty in our country as a whole.

Congratulations!

BEN P. EVARDONE
Governor

The Many Faces of Poverty in the Province of Eastern Samar

CBMS Core Indicators, Province of Eastern Samar, 2005-2006

INDICATOR	Households		Population	
	Magnitude	Proportion	Magnitude	Proportion
DEMOGRAPHY				
Population	80009		386350	
Average household size	5			
Children 0-5 years old			56006	
Children 6-12 years old			75425	
Members 13-16 years old			38741	
Members 6-16 years old			114166	
Members 10 years old and above			286485	
Members of the labor force			139470	
HEALTH AND NUTRITION				
children 0-4 year old who died			420	1.0
women who died due to pregnancy related-causes			32	0.5
malnourished children 0-5 year old			3045	5.4
HOUSING				
households living in makeshift housing	2003	2.5		
households who are informal settlers	2749	3.4		
WATER AND SANITATION				
households without access to safe water supply	17003	21.3		
households without access to sanitary toilet facilities	24624	30.8		
BASIC EDUCATION				
children 6-12 years old not attending elementary school			17670	23.4
children 13-16 years old not attending high school			16746	43.2
children 6-16 years old not attending school			18794	16.5
INCOME AND LIVELIHOOD				
households with income below poverty threshold	50785	63.5		
households with income below food threshold	42247	52.8		
households who experienced food shortage	10592	13.2		
Unemployment rate (15 years old and above)			27990	20.1
PEACE AND ORDER				
victims of crime			1427	0.4

**Republic of the Philippines
Province of Marinduque
Office of the Governor**

Message

Greetings from the Provincial Government of Marinduque!

We congratulate the CBMS Network Coordinating Team for coming up with its first volume of statistical tables and poverty maps generated through the community-based monitoring system (CBMS) methodology. Through this publication, development stakeholders not only in my province of Marinduque but in 6 other provinces as well will be able to fully diagnose the extent of poverty, determine its causes and facilitate the achievement of the Millennium Development Goals (MDGs).

We will continue to support the institutionalization of this program by forging an even stronger relationship with our CBMS partners.

Our local leaders and constituents from the six municipalities of Boac, Buenavista, Gasan, Mogpog, Sta. Cruz and Torrijos join me in thanking the CBMS Network Coordinating Team for their support!

JOSE ANTONIO N. CARRION
Governor

The Many Faces of Poverty in the Province of Marinduque

CBMS Core Indicators, Province of Marinduque, 2005

INDICATOR	Households		Population	
	Magnitude	Proportion	Magnitude	Proportion
DEMOGRAPHY				
Population	45999		204627	
Average household size	4			
Children 0-5 years old			29663	
Children 6-12 years old			40066	
Members 13-16 years old			20662	
Members 6-16 years old			60728	
Members 10 years old and above			152064	
Members of the labor force			66493	
HEALTH AND NUTRITION				
children 0-4 year old who died			129	0.5
women who died due to pregnancy related-causes			16	0.4
malnourished children 0-5 year old			1864	6.3
HOUSING				
households living in makeshift housing	1774	3.9		
households who are squatters	1065	2.3		
WATER AND SANITATION				
households without access to safe water supply	6674	14.5		
households without access to sanitary toilet facilities	10037	21.8		
BASIC EDUCATION				
children 6-12 years old not attending elementary school			7967	19.9
children 13-16 years old not attending high school			6042	29.2
children 6-16 years old not attending school			6607	10.9
INCOME AND LIVELIHOOD				
households with income below poverty threshold	28455	61.9		
households with income below food threshold	22203	48.3		
households who experienced food shortage	1832	4.0		
Unemployment rate (15 years old and above)			8258	12.4
PEACE AND ORDER				
victims of crime			322	0.2
